M y son and a friend lost two Game Boy games on 12-4-93. We looked everywhere for those games to no avail. You can imagine my surprise when this afternoon on the first nice day we’ve had in many months, I found both of the lost games in my backyard. They have been outside for three and a half months in snow and -20 degree weather. I was happy to solve the mystery of the missing games, but really didn’t expect them to still work. My son got his Game Boy and tried both games. They both played great! I am very pleased with your product. Keep up the good work.

Don’t know what it is with pets and Nintendo Power, but they seem to be able to read the magazine as well as anyone else!

Hi! I’m one of your subscribers in Canada and I just want to say that I love your magazine! I’m a pretty artsy person. I draw, paint and do other things like that during my spare time. A few Christmases ago, when I got my new Super NES, I was so excited I decided to make some figures to go beside my Super NES. (I thought it would be cute.) Since it was during Christmas, I had lots of free time, so I started to sew a replica of Mario. After I was done, I created a whole clan of replicas of the characters from Super Mario World! Soon I had 14 figures to put beside my Super NES. Pretty cool, huh? I’m working on a Samus replica right now.

What good are Super Power Stamps if they’re so hard to get? I mean...they’re a great idea, but you should have more ways to get ’em.

MIKE ANDERSON
WAYNE, NJ

I am writing about the Super Power Stamps. I think they’re great. I mean you practically can get items for free! I plan on saving them up for the Mario Paint Guide or the Best Play Basketball. I think that there should be more ways to win Super Power Stamps, like more contests and in the Player’s Poll. In the Player’s Poll Contest, the Grand Prize could be the regular prize plus 10 Super Power Stamps. Second Prize could be the regular prize plus 5 Super Power Stamps and Third Prize could be the regular prize and 3 Super Power Stamps.

Hello? Hello? Am I dreaming or am I looking at my second Super Power Supplies catalog? Well, I’m not dreaming ’cause this thing is filled with way cool stuff. Keep it up NP! I’m looking forward to more Super Power Stamps and the third catalog.

TONY COREY
WASHINGTON, NC

Tony has probably fainted and is lying on the floor right now because he just got his third Super Power Supplies catalog! If you know Tony, read this issue later and please go over to his house to wake him up. But don’t forget to tell him that in November of this year, we’re gonna hit him with the fourth Super Power Supplies catalog! Nintendo has a truck load of new games coming out later this year and the merchandise in the fourth catalog will certainly reflect that.

We’re looking for great summer vacation stories! And we’re still on the lookout for photos of you with Nintendo Power at interesting vacation destinations. Send ’em in.
I think the Super Power Stamps are great! I am saving mine up for a Link's Awakening Player's Guide. It will really help me play the game a lot easier. I don't get a lot of money, so it helps me out a whole lot. I really like everything. Like the Mag Protectors—I look in my NPs so much, they can get a little beaten up. I also like the Mag Action Stand. I can't tell you how many times the pages turn by themselves while I'm using them. Not to mention the fact about the genius idea to make the pages plastic. Being the clumsy person I am, all my pages are stained from soda and grease from popcorn and chips. All I do is play my Super NES all night so I eat my dinner and snacks right in front of my TV. I can't wait till I get some more Super Power Stamps so I can order from you!

CORRECTION!

Our apologies go out to Tracy & Jamie Orlando of Rock Falls, Illinois. The TOP 10 list that they sent in was featured in the Player's Pulse in Volume 81, but it was improperly credited to Joel Self of Santa Clara, California. Sorry about the mix-up!

EDITOR'S CORNER

Nintendo's current advertising campaign is designed to let you know how our games should really be played...LOUD!!! On the literal front, it makes perfect sense 'turn up the volume on your TV when you play games with great sound like Super Metroid. But it also makes sense since Nintendo makes the best games and we've got a lot to shout about! We're excited about the attitude and edge that our "Play It Loud" ads convey, but we do want to know what you think. Please write.

just bought something out of the second Super Power Supplies catalog and cut the price almost in half by using Super Power Stamps! I think you should have contests about three times a year where you could win up to 50 Stamps! I wouldn't hesitiate to enter that

JOSH MILLER CHARLOTTESVILLE, IN

think the Summer 1994 Super Power Supplies catalog is super! The T-shirts and posters are totally cool! My favorite item is the Super Metroid Limited Edition Print. I think this poster is the best one yet. My order for the poster is already in the mail. The Super Power Stamps that are worth a dollar off are a good idea. Please send more Super Power Supplies catalogs and Stamps!

The Super FX Chip Strikes Again!

In the sense that you are steering a car around a track and trying to beat your rivals to the finish line, Stunt Race FX from Nintendo is a racing game, but it's like no other race in existence! The power of the Super FX chip allowed for some incredible tracks to be constructed. One of the most enjoyable options the game delivers, the Stunt Trax, tests your motorized skills in one of five obstacles courses.

Speed Trax
Free Trax

The race tracks are identical for these two racing variants, but in Free Trax, there aren't any other cars trying to reach the checkered flag in front of you. The course is open.

Stunt Trax

Four crazy courses and one bonus event await your arrival in the Stunt Trax section of Stunt Race FX. These courses are really a kick and on top of that, they're challenging!

Battle Trax

Real-time, 3-D, two-player racing! Stunt Race FX makes it easy! Battle Trax can be played as a one-player game, too. The second car draws you about 3.5 seconds after you start.
Fox McCloud and company cleaned up the galaxy in Nintendo's first Super FX game, Star Fox, but General Pepper's space aces are taking a little break right now. Don't worry, they'll be back! The current FX action is taking place down on the ground in Stunt Race FX. The flying-by-the-seat-of-your-pants action that Star Fox delivered is captured brilliantly in this gear-grinding racing and driving game. Each one of the race cars has a unique "personality."

**360° PERSPECTIVE ON A WHOLE NEW WORLD**

If you take some time to watch the demo scenes, you'll soon see that the world you will be racing in is a realistic 3-D environment. You can choose from three perspectives by pressing the Select Button. But no matter what your perspective changes to, it'll appear that you're really there—right in the midst of all the action!

**COUPE**

We might suggest that you begin your Stunt Race FX racing career with the Coupe. It's not extremely fast and it doesn't have a high top speed, but it handles pretty well and doesn't have a tendency to get away from you, control-wise. It's more durable than the F-Type.

Blasting down the track with the speedy 2WD racer! This view demonstrates the default perspective setting. It rates a "medium" level of difficulty.

If you select the view from inside the cockpit, in the driver's seat, you've effectively increased the difficulty level of the game.

We dare you to recreate this scene! Where's the track? Did the Coupe get launched off the side of the track or is this a case of a roving camera?
Consisting of twelve totally different tracks spanning three difficulty levels, Speed Trax comprises the main racing section of the game. Before you can access the Master tracks, you'll have to complete the entire Novice and Expert classifications. Go through the Novice classification with each race vehicle to test its performance.

**EASY RIDE**

A good finishing time for Easy Ride is anything under 2'00". Depending on which car you choose to race with, there are certain areas to watch out for. Be careful going down the underpass if you've chosen the F-Type racer. You could take some damage.

**AQUA TUNNEL**

Aqua Tunnel features a section of track built underwater, enclosed in glass. It's a cool effect, but can be a little distracting at first. Pay close attention to the corners while racing through the tunnel and set yourself up properly to be able to take them at full speed. Use a little bit of Boost when exiting the tunnel so you maintain your momentum going up the hill toward the finish.

**SUNSET VALLEY**

Sunset Valley is the most dangerous track in the Novice classification. Some corners are not adequately marked and there are large rocks that have fallen onto the track. The sound is really cool when you go through tunnels.
NIGHT OWL
If you're good, you could have 100 or more extra seconds built up by the time you reach this track. That's really the purpose of trying to achieve the best possible time. Extra Time carries over to the next race and allows more room for error.

You'll catch some air just after the first corner. You'll benefit by keeping your rig down on the track.

Use the L and R buttons for extra cornering ability. Especially when faced with tight hairpin corners like this!

STUNT RACE FX

KING'S FOREST
The Expert classification starts off with a foggy little cruise on the King's Forest track. It's not an extremely difficult course, but there are some tight corners that can cause difficulties. The fog burns off during the second lap and the sun comes out in full force.

You can press the X Button to stretch your vehicle up and "jump" over a hill. A good passing technique!

King's Forest track.

Your visibility is reduced a little bit by the fog, but not so much that you won't be able to see every corner when you need to.

SEA BREEZE
Sea Breeze looks like it should be a breeze.

There aren't any really sharp corners! However, there are some obstacles in the half-pipe section that can throw you for a loop. Try to stay low in the half-pipe if you can.

Stay to the left through the water in order to pick up the Boost Power-Ups. You'll need them if you want to score a great time.

The half-pipe section is probably best navigated by the 4WD vehicle. It rolls best with the rounded terrain.

F-TYPE
The F-Type is in sad shape here. It's taken quite a bit of damage and is smoking heavily. Hope for a Damage Power-Up to come along.

The F-Type vehicle is great to use on tracks that feature long, straight stretches and sweeping corners. Once the F-Type gets up to speed... watch out!

As far as the 3DMG is concerned, and withstand damage, the F-Type car is the weakest of the three main vehicles. It's the slowest accelerating vehicle out of the three. However, it does have the fastest top speed—140 mph flat out.

The F-Type vehicle is used.
WHITE LAND

Miserable conditions prevail at the White Land race track. The entire course is covered with snow and ice. The 4WD vehicle is the best choice here because it's very stable on unpredictable surfaces.

WHEN LANDING A JUMP, IT'S IMPORTANT TO HAVE YOUR RACER POINTED IN THE RIGHT DIRECTION. YOU COULD SPIN OUT, OTHERWISE.

The pure white stuff along the sides of the track is snow that has been cleared away. Try not to get into it.

NIGHT CRUISE

The fourth and final race track on the Expert circuit (excluding the Bonus Round), Night Cruise, features some very tight corners. Imagine that you're competing in a Grand Prix and you're racing through the streets of some big city. That's the feeling that you'll get on this track. Selecting the cockpit view provides constant thrills on this track. The corners come up very quickly and you have limited time to react.

Just after the start/finish section, Fox McCloud takes a short break from training for his next mission and swoops down in his Arwing fighter to drop off a Boost Power-Up for you.

Use Boost through the long, swishing 'S' turns. Don't use the L and R Buttons.

LAKE SIDE

You've worked your way through the Novice and Expert circuits and have earned the right to compete in the Master classification! The Lake Side track features a classic racing layout and some very cool and interesting special effects... like a drawbridge! It's really got it all.

The gridded drawbridge is being raised slowly. You can see how far it has opened from elsewhere on the track. It gets pretty steep on the third lap.

It's a very good thing that the megadinosaur is a vegetarian! It would be cool if it tried to chomp on your car, though!
BIG RAVINE
Because of the length and layout of the Big Ravine track and the time constraints applied in the Speed Trax races, this race may prove to be the most difficult. Get in some practice on the hairpin turns!

There are some very large obstacles to watch out for on the Big Ravine track.

You'll experience a variety of weather conditions as you battle your way around this truly treacherous track.

SKY RAMP
Built entirely in the clouds, the Sky Ramp track features rolling ups and downs along extended straight stretches and turns that are mainly of the 90 degree variety. You'll be using the L and R Buttons quite a bit here.

The Star Fox squad is checking out the Sky Ramp race and will make a few fly-bys.

It's not too often that a blimp floats below you! This should give you a strong indication of how high up you are.

HARBOR CITY
The Harbor City track is probably the longest track in the entire game. This 3 minute-plus trek covers a course that is wide open, for the most part. There are some obstacles to contend with, though. For example, there is a section of the half-pipe part of the track that is missing. Boxes and cones are also scattered about.

Harbor City is just as challenging when you run it backwards! Have some Free Trax fuel! Rules? What rules?
Welcome to the crazy world of the Stunt Trax! In this part of Stunt Race FX, you are presented with four courses and a "bonus" course upon completion of the initial four. Your task for the first four courses is to make it to the finish line before time runs out and to collect as many stars as you can. It's not as easy as it sounds!

**ICE DANCE**
Getting off course during an Ice Dance run is not a good idea. Your time will run out quickly. Head straight for the doors.

Press the X Button to leap off the end of a jump if you need more distance.

In the section of Ice Dance that features several quarter-pipes, it's very easy to run out of time. If you want to go for the stars, don't go up high on the quarter-pipes — stay down low. Head for the exit if you're low on time.

**ROCK FIELD**
When it comes to collecting stars, the square-shaped Rock Field course is easy to complete with a PERFECT score. The only tricky sections are the hazardous and potentially damaging whoop-de-doos. Blaze through the rest of the course!

Approach the green and white striped bowl-shaped obstacles head on. You could easily get turned around, otherwise.

A direct, head-on approach should also be employed as you make your way over the whoop-de-doos section of the Rock Field course. The 4WD handles this section much better than the other race vehicles do. Good suspension!

**BLUE LAKE**
Someone left the water running! There are no deep sections, but the water in Blue Lake keeps the Coupe and F-Type racers bogged down. Go for the 4WD. Its monster mudder tires breeze through the water.

Use Boost every now and then to keep your speed up because the water tends to hinder your pace of forward motion.

To save time, take the shortest route that will give you the most stars. Know where you're gonna go!

Uh-oh. The finish line is in sight and the Coupe doesn't have enough speed to clear the last big set of ramps!
**STUNT RACE FX**

The Super FX chip gives you the ability to rotate—\[i^j-i\].

- **11,1** an V Polygon and see it in a true 3-dimensional view.
- Why not take a view from a stationary perspective while the action goes on around you?

In the Radio Control section of Stunt Trax, you take a bird’s-eye view of the play field. Your perspective rotates in one location, much like a camera would view the action. Your goal is to knock the three other vehicles out of commission.

**SLAM!!** The first casualty of the Radio Control course bites the dust. Even the slightest touch will take a vehicle out, but your car won’t take any damage.

**UP’ N DOWN**

Again, on the Up ‘N Down course, the 4WD vehicle seems to be the best choice for making the run for the finish. There are lots of tall jumps on this course, hence the name Up ‘N Down. The suspension systems of the Coupe and F-Type just don’t handle the kind of abuse that this kind of course can dish out. But the 4WD, being the hungry racer that it is, gobbles it right up and asks for more!

It may not look like it, but it’s pretty easy to miss the stars that are placed in the centers of the green and white striped bowls.

**RADIO CONTROL**

The Super FX chip gives you the ability to rotate any polygon and see it in a true 3-dimensional view, so why not take a view from a stationary perspective while the action goes on around you?

In the Radio Control section of Stunt Trax, you take a bird’s-eye view of the play field. Your perspective rotates in one location, much like a camera would view the action. Your goal is to knock the three other vehicles out of commission.

**4WD**

For strength, quickness and cornering ability, the mini-monster truck 4WD just can’t be beaten. It’s a heavy duty ride! And it’s a good bet that it may end up being your favorite vehicle to race with if you give it a chance to prove itself.

All four wheels getting traction is a big help when comes to cornering and blasting out of those corners.

A shot of Boost rockets the 4WD ahead.

**COLLISION!!** The first casualty of the Radio Control course bites the dust. Even the slightest touch will take a vehicle out, but your car won’t take any damage.

**Getting up close and personal with the 2WD racer as it passes almost directly underneath your viewpoint. You can’t see much around you here.**

**4WD**

- **2'15"**
- **07:33'7X**
- **0:27'2P**
- **0:42'2P**
- **0:27'2P**
- **0:42'2P**

- **C YA! Wouldn’t wanna be ya. Number 2 bursts apart as you continue your search for victim number 3**

Tail obstacles make this spine in a Stunt Trax course can be scaled by the ground-grasping 4WD. The only thing it can’t climb is vertical walls.
BATTLE TRAX

Not only does Stunt Race FX give you the thrill of taking the controls of a wild race vehicle, you can also take to the tracks and race against a friend! Battle Trax is the only two-player mode in the game. It has a split-screen view. You can also race on the Battle Trax courses by yourself and the computer will control the other racer.

MARINE PIPE

If you view the small on-screen map of the Marine Pipe track, it looks pretty oval-ish and uneventful. It's not a thrill-a-second kind of track, but if you get into a bumping match with your rival, the half-pipe sections of the track can pose a serious problem, especially if you're racing with a vehicle that spins out easily. If your vehicle gets rammed in the half-pipe, you could end up going over the edge of the track and into the water. Splash! You lose.

COTTON FARM

The Cotton Farm is another track that has a classic racing layout. There are no big surprises, but the racing action could get hot because of the S-turns and the hairpin turn. Enter the hairpin turn on the outside of the track and try to cut the corner as much as you can. Once you've made it halfway through the turn, get all over the Boost and scream like a rocket down the stretch to the finish line.

When two cars of the same type race against one another often the only way a driver has to get ahead is to resort to nasty tactics. Here, a Coupe is marching the other end of first place by smashing it into the side rail of a particularly tight corner.
PORT ARENA

The Port Arena track is fairly long and features a few obstacles that can really give you problems, especially if you're locked in a tight battle for the lead! Down the back straight, just after you've reached the top of the short incline section, you'll come across a median. They're those strange things that just sit out in the middle of the road and appear to serve no real purpose. You have to steer clear and go around them. Just around the next corner are two more of the crazy things!

A great move! The Coupe bumped the F-Type into the wall and now appears to be in position to win the race.

This shot is another prime example of how cool the various perspectives can be in Stunt Race FX. The split-screen view shows the Coupe exploding from two angles.

TOXIC DESERT

There are a few gigantic boulders sitting in the middle of the course down the back stretch of the Toxic Desert track and a couple of hazardous road swells that act like jumps as you near the finish line. Other than that, Toxic Desert is non-toxic. Sterilized, if you will. The track is wide open and you shouldn't have much trouble if you want to try for a pass. However, this can also play to your disadvantage if you are in the lead.

Once you've completed all of the courses in Free Trax, you can race with the speedy 2WD vehicle. The same goes for the Speed Trax, except there are more races that you have to complete. The 2WD is like a motorcycle and it's pretty difficult to keep under control, especially when it reaches speeds around 140 mph.

What is this? Formulae racing? Both 4WD vehicles have launched themselves off of the road swells. Taking jumps while at full throttle is too cool!

If you want to experience a shocking head-on collision, just have one player turn around and stand on it.

Somethe 2WD and enter King's Forest on Free Trax. Turn around and hammer the throttle. You'll be treated to a launch off of the best jump in the game!
With skilled brush strokes and a haunting tune, Interplay has transformed J.R.R. Tolkien's classic fantasy into a magical adventure for up to three players. Closely following the path of the fictional Frodo, your furry-footed hero leaves his home in Hobbiton and battles orcs and other dangers from the Barrow Downs to the Mines of Moria. Piecing together clues and aiding in quests, the party navigates the endless twists and turns of their chosen path.

In the third age of Middle-earth, Sauron again rose to power in the dark land of Mordor, commanding fell beasts and evil, twisted men. Nothing could stop his domination of the west but the Ruling Ring, which he had lost in another age. Now that the Ring has been found, the only hope is for a party of hobbits and their companions to take the Ring beyond the Misty Mountains to the land of Lorien. Fans of Tolkien's fantasy will recognize the fellowship and many landmarks, but this adventure has its own secrets and dangers.

You can use the Super NES Mouse instead of a regular Controller, but we don't recommend it.

Up to three players can join in the quest using a multi-player adapter and extra controllers.

Experience The Lord of the Rings on a new, interactive level, and expect the unexpected.
Frodo must gather all the strength that he can if he is to survive the trek through the wilderness to Rivendell. Since strength comes in numbers, it's a good idea to bring companions along. Most of the same characters who appeared in the story will join Frodo, but at different times. Frodo leads the way until Aragorn meets them in Bree and assumes command.

The Hope of the West
West of the mountains lies a wilderness of rivers, forests and ruins. The company must pass unseen through this land, but Sauron's unsleeping eye watches all.
ESCAPE FROM THE SHIRE

At the start of the game, the Ring Wraiths are already at the borders of the Shire. Your first task is to enlist the help of Pippin and Sam, then head cross country to Crickhollow where Merry is waiting. From there, your journey leads into the mysterious Old Forest where Tom Bombadil lives.

IN THE SHIRE

Begin your quest by talking to all the hobbits in Hobbiton, then leave by the north gate and defeat all the wolves so Pippin will follow you. Since Sam won't leave his aging Gaffer until you find the old man's glasses, head west to the caves and search them using the maps in the manual. The caves are vast, dark and full of foes, so beware. You'll also need to find two gems in the caves. When you receive the Key to Hobbiton, leave town, but don't cross the bridge. Leave the trail and head south and east toward Crickhollow and the Brandywine River. To cross the ferry, you'll have to help Farmer Maggot by defeating an attacker then recovering his jug from Ted Sandyman. Finally, take a note and oar to the ferryman.

BAG END

Frodo must leave his home at Bag End and make his way toward Rivendell. Gandalf has left a message indicating that he should first head for the town of Bree which is not far from the Shire. But rumors of Ring Wraiths on the roads have already been heard in Hobbiton so every step Frodo takes leads him toward danger, not away from it.

THE LEGEND OF TOLKIEN

When J.R.R. Tolkien first published his epic tale, no one had ever heard of orcs or Mordor. It was a work of incredible imagination. Tolkien, a linguist at Oxford University, even created languages for the imaginary peoples of his realm. The story of the Ring is encompassed in three volumes: The Fellowship of the Ring, The Two Towers, and The Return of the King. You can add immeasurably to the richness of this game by reading them.
The Lord of the Rings: Brandony Bridge

Talk to all the hobbits before leaving on your journey. Don't cross the bridge!

Old Forest

Everything is strangely aware in the Old Forest. Even the pathways change steering you toward Old Man Willow.

Farmer Maggot

You'll have to lend a hand to Maggot before crossing at the ferry.

Travel Aides

Take the mushrooms and other items found in the bags.

Although you have barely left the fields of the Shire, the dangers mount with each step. Fortunately, the tiny hobbits are a sturdy folk and their daggers bite deeply into the ankles of unwary foes. If you are playing alone, remember that you can switch control from your leader to the other members of your party.

When new hobbits join you, carefully watch their hit points until they've gained several levels of experience. You don't want to leave a comrade behind.

Ores have attacked Farmer Maggot's house. You've arrived just in time to save him.

Hobbits with daggers are no match for the servants of Sauron. Take the long way around.

What an oar-deal! Find the Honey Jug and Maggot will lend you an oar.

While searching for the Hobbit Juice, you'll face countless attacks by wolves.

Ring Wraiths

The nine Ring Wraiths of Mordor are Sauron's most terrible servants. These ghosts cannot see in the light of day, but they are drawn to the One Ring. If you cross the Brandywine Bridge, you'll discover just how strong they are. Avoid the Wraiths at all costs!
Once Frodo and his companions have landed safely on the east side of the Brandywine, proceed straight ahead through Buckland—the narrow strip of the Shire where Frodo was raised. Soon, you will reach Crickhollow where Merry Brandybuck is waiting. Gandalf's note instructs you to head east to reach Bree. The roads aren't safe, but the eerie Old Forest is hardly any safer. You'll also meet a company of elves. Listen closely to their advice. Farther on, a man will give you the Key to Bree. The path in the Old Forest leads you to Old Man Willow, who captures your companions. Seek out Tom Bombadil, who lives in the northern part of the woods, then return to the tree. Soon, Bombadil appears and frees your friends.

The next leg of your journey takes you into the haunted Barrow Downs. Here you'll find a maze of passages and ancient tombs. If you disturb the tombs, Barrow Wights appear and attack you. You'll find several elven amulets in this area along with lots of gold, better armor and weapons, and the keys to locked tombs. Follow the maps on the next pages to navigate the maze of the Downs. The gold can buy you information and items in Bree.

Old Man Willow has a taste for hobbits. He'll lure your companions into a trap.

Old Man Willow has a gateway gem.

The elves near the Old Forest have much wisdom. Ignore them at your own risk.
The Barrow Downs were once the homes of proud kings who fell into evil. Now they jealously guard their hoard of treasure and dark secrets. The mists that cloak the Downs will chill a traveler to the bone.

Gem, Barrow Dagger
The town of Bree is home to both men and hobbits. Here you will meet Aragorn the ranger and prepare for the hard journey to Rivendell. Listen closely to what the Breelanders have to say.

**THE GATE**
Take the north road from the crossroads to the gate of Bree. There, give the gatekeeper the proper key and the note from Gandalf to gain entrance.

**BREE**
The town of Bree is home to both men and hobbits. Here you will meet Aragorn the ranger and prepare for the hard journey to Rivendell. Listen closely to what the Breelanders have to say.

**BARROW WIGHT**
The Barrow Wights fly out of their tombs when trespassers venture near. The Wights inside tombs don't put up much of a fight, even against poorly armed hobbits. Tomb snakes prove more dangerous. Wights outside the Barrows can be far more dangerous than their indoor kin.

---

Be sure to speak with everyone. You'll find a woman's ring in the Wilderland caverns along with Legolas' bow. Be sure to map the caves. Another woman gives you a letter only if Aragorn is with you. Beyond Bree lie the mazes of Wilderland and the dark secrets of Moria.

You can buy armor and weapons in Bree. You can also pick up better equipment in the Barrow Delves and the huge cave of Wilderland.

Aragorn acknowledges you only if you show him the leaf ofathelas, the healing herb of kings.

---

**BEWARE THE MINES OF MORIA...**

Trolls and Balrogs lie ahead, but the final journey to Mordor must wait for Volume Two.
Giant monsters ravaged the Earth, and the humans cowered in fear. Then, when Alien forces landed on Earth, they ended up being worse than the monsters! Now Earth's only hope for survival lies with the King of the Monsters.

**BIG MONSTER ACTION!**

King of the Monsters 2, by Takara, gives you a chance to recreate the action of your favorite B-rated movie. Crush small buildings, munch jet fighters, and combat the evil Alien hordes that threaten the Earth. You can even battle your friends in a two-player mode.

**CYBER WOO**

This mechanical mayhem-maker is the monster of choice if you are looking for a well-balanced fighter. Cyber Woo has powerful attacks as well as good attack speed. If you get a chance to power-up Cyber Woo, you can blast opponents with an explosive Laser Cannon!

**ATOMIC GUY**

The power of a nuclear explosion courses through Atomic Guy's veins. High-voltage attacks and lightning fast reactions make this monster the one to beat. Choose this character if you're a beginner!
YOUR MONSTER!

KING OF THE MONSTERS 2

Super Geon

Pointed horns and spikes make this monster a powerful foe! His long reach keeps enemies at a distance, but his slow speed makes him a challenge to control.

Extra Help

Finishing off all of the bosses is tricky when you are playing alone. You can only Continue the game a few times, but with this trick you can double your chances of beating the bosses. If you are about to lose your monster and are all out of Continues, quickly press Start on Controller II. You will take control of Player 2 and will have a whole set of Continues to use!

If you've used your last Continue, grab Controller II and press Start before you're toast.

As Player 2 you will have a full complement of Continues you can use to finish the game.

Charge up Atomic Guy's batteries, then let loose with a shocking attack!
The monsters have their own special attacks, but because they are giants, they also can use buildings as weapons. Press the X Button to pick up a building, then press it again to throw it at your enemy.

When you arrive in the American City, the Huge Frogger is waiting for you. Fight him off at the beginning of the stage, then hurry past the smaller enemies to find him again. It's a good idea to find all of the Power-Ups early in the stage, because you won't have time to look when you reach the boss.

Watch out for the Huge Frogger’s jumping attacks. If he hits you with one, you'll be knocked to the ground. If you jump away quickly, he'll miss you.

The boss of the French City is actually two bosses. After you defeat the giant humanoid, his blob-like head will come after you. Although it isn't very strong, it can be hard to hit.

Don't get smothered by the blob-like head!
Getting to the boss of the Grand Canyon isn't really that tough, but beating him is a whole different story. Try to get Clawhead in a clinch, then take advantage of his weak wrestling skills. Watch out for his powerful lashing tongue, or it will hit you hard and knock you to the ground!

The Desert Stage is fairly short, but the boss is the toughest enemy you've met so far! Your best bet is to hit him, then run away. Avoid the boss's hands when they pop out of the sand. If they catch you, they'll drag you underground and hit you hard.

Some of the creatures found underwater can be difficult to avoid as well as dangerous to fight. If you press the B Button continuously, you can swim right over the worst of them and move on to fight the boss.
When the most shocking event in Super hero history rocked the world, Sunsoft decided to put it in a video game—The Death and Return of Superman!
THE DEATH AND RETURN OF SUPERMAN

This game includes story elements and characters from both "The Death of Superman" and "Reign of the Supermen" comic series. You'll begin play as the original Superman, and later as the four heirs. In some stages, the Supermen fight to determine who is truly superior!

DEAD OR ALIVE?

Can the incredible, planet-moving strength of Superman crumble into dust? Is his death just a clever ruse? One thing is for sure, all four of the Super-hopefuls can't be the real Superman. The world may never be the same again.

SUPER HERO OVERLOAD

The planet isn't big enough for five Supermen. Doomsday didn't think it was big enough for even one. Now the four remaining pretenders must prove their worth. Each hero can fly, punch, and kick, but the similarities stop there. Super weapons and attacks, plus unique grabbing and throwing moves differentiate these heroes.

STEEL

The Man of Steel wears an exoskeleton of stainless steel in his mission to carry on where Superman stumbled. He uses Rivet Bullets and a Sledgehammer dive when the going gets tough.

SUPERBOY

The Kryptonian Prince Superman may have a new generated Superboy claims that he is the true heir by virtue of his super-genetic code.

THE CYBORG

Apparently resurrected from the remains of the original Superman, the Cyborg's DNA matches perfectly and his robotic parts seem to be of Kryptonian origin. Is he the one?
Lillie suspecting his fate has already been determined. Superman bravely confronts the assault of the underworld elements infiltrating Metropolis. Bombers, bikers and other terrorizing scum will crumple on Superman's fists.

**GRAB & THROW**

The Grab and Throw technique is almost always your best fighting move. It's powerful, and you can use it to find hidden Power-Ups.

**DOWN & OUT**

Enemies attack from both sides as the elevator drops downward. Watch out for Ticks and thugs. Attack the Ticks first.

**THE CLAWSTER**

By super villain standards, the Clawster is a wimp. Superman shouldn't have any trouble. Your super technique is to push him against the edge of the screen and hit him before he can stand up.

**SUPER ITEMS**

Look for items high, low and hidden in walls where you have to break them out.

No matter how good you are, Superman won’t survive this level. It won’t be the Molotov Cocktail-tossing hoods or biker brawn that stops the man of steel, but the horror named Doomsday that you fight at the end. Even if you defeat the D man, he’ll come back and send Superman to Elvisville.

**WRECKING CRUEL**

Lure unsuspecting enemies close to the place where the ten ton ball smashes down. Since your foes have the intelligence of dim ants, they’ll foolishly walk into the trap and splat!

Doomsday drops in twice, but runs away after the first brief skirmish. Use Special Attacks during the second bout.

The fight battle is a breeze. In the real fight, use Special Attacks to put him down. After defeating D, however, he’ll rise up and strike Superman with a fatal blow.
THE INCREDIBLE HULK

Coming Soon To your Super NES from U.S.Gold
Now that Superman is gone, you'll continue your mission of justice in the form of the Cyborg. In the first area of this level, the Cyborg flies toward the Cadmus Project while blasting attack pods. In the later areas, you'll battle enemies in the air and on the ground.

**FLIGHT SCHOOL**

The Elite Flyers don't attack at once. As they gain altitude, swoop in and punch them out. It takes two attacks to-ground them.

**POWER-UPS**

Fly everywhere, scrolling forward slowly to look for Power-Ups because you can't backtrack. Throw Defenders against the walls to find items.

**SENTINEL**

The Sentinel may seem tough at first, but it takes damage quickly. Dodge its shots, use Special Attacks and stay close to punch it.
Hudson Soft's sensational sequel to the Super NES adaptation of the ever-popular animated feature film, American Tail, let's you guide Fievel through five fearful stages to save the Mousekeweitz family from the conniving Cat R. Waul's evil plot. That cunning cat has lured many an immigrant family to a promised land out West where cats and mice work together to make the perfect place to live. Fievel finds out, though, that Cat R. Waul's real plan is to make them into Mouseburgers! Can Fievel free his family from becoming a feast?
The City Stage has many mischief-making obstacles to keep you from completing your quest. Be aware of dangerous drop-offs—that mistakenly made step can be a real doozy! Don't misjudge your jumps, either, as there are several precariously placed platforms. Most enemies can be bopped in the head with your Pop Gun.

Some Barrels are sturdy enough to stand on, but others will get you all wet.

Be sure to get that Gangster Cat before he gets you. Luckily, he's slow.

Earning Mice

Even a master with marvelous Mouse abilities might require some extra help. Look high and low for helpful but hidden 1-Ups.

Collect one hundred Gold Coins to win a useful 1-Up.

Fievel's first leg of his long journey begins in the strife-ridden streets of New York City. With Cat R. Waul's gang in hot pursuit, it's best that Fievel make his stay in the Big Apple short but sweet. Don't miss any of the helpful Power-Up Items, though, as they will come in handy later.
**PUT OUT THE FIRE**

Using these platforms as-is is not smart—you'll lose a Heart! Shoot the flaming platforms with the Water Gun to extinguish the spine-scouring sparks. They will then be safe to hop upon.

---

**ONE-EYE**

Whether One-Eye has one eye or two, one thing is for sure: he's ready to make mouse meat of Fievel! As soon as you drop onto the fire, shoot the blocks to use your Water Gun and Rapid Fire, then let him have it right in his ugly mug!

**AN AMERICAN TAIL FIEVEL GOES WEST**

---
THE SEWER

The Sewer Stage is a slimy and scary place, but at least it beats the streets of the City Stage... or does it? Hold onto your hats—there is a whole herd of hazards here like dangerous Dogfish, batty Bats and unusual Urchins, not to mention the ebbing and flowing of the tide trying to suck you away!

FLOAT ALONG

Row, row, row your Tuna Can, gently down the Sewer? That’s how the song goes in this Stage, although the ride is far from being a gentle one. Keep shooting so when the Bats and Dogfish sneak up, you’ll get the jump on them.

The Sewer isn’t all bad—grab the Immobility Star for an extra edge.

SWIMMING

It may be best to brave the rapids on your own, so toss the Tuna Can and swim! Those Dogfish won’t be as sneaky.

After managing the streets of the city, Fievel ducks down a duct into the depths of the City Sewer

TRAIN RIDE

Finally having made his way out of the slimy, smelly Sewers of Stage Two, Fievel finds a tip that his family can be found on a train. Here he is at the Train Ride Stage, but the trick is to catch up with the correct car before it’s too late! He thinks he can, he thinks he can...

Fievel schooled on the fast track to finding his family by the time he reaches the Train Ride Stage. All aboard!

ROCKY RAT RACE

Riding the rocky rat race in the Coal Carts is a real game of cat and mouse, but Fievel must persevere if he is to save the Mouseskowitz family. Keep shooting to get ahead of the competition, but don’t forget to watch your tail, too, because those bandits will surprise you by sneaking up from behind.

Watch your rear! Those nasty cats can come baring up from behind.
SECRET LADDER

Be wary while swimming over the pits—they can suck you in like a sponge.

BREAKAWAY BRIDGE

The Breakaway Bridge is not the place to linger, due to the fact that it will dissolve as soon as you touch it. You had better step lively, because there’s no turning back!

PUPPET

Puppet, the Boss of the Desert Stage, is a whole mess of trouble. Being that he is merely a puppet in Cat R. Waul’s evil theatrics, he comes complete with many strings attached, but you’ll need to be the one pulling the strings! Pop him repeatedly with your Pop Gun while watching out for the crazy Corks and bouncing Balls he heaves.

CHULA

Chula is the terrifying tarantula of the Train Ride Stage, and those who get caught up in her web are seldom seen again! Keep shooting while avoiding the poisonous blobs she blows. Watch for a bevy of Babies, too!
Caterpillars

Shoot these leggy little buggers in the head right away, or they'll split up and you'll have more than one pesky pest on your hands. Fievel was close to catching up with the rest of the Mousekewitz family when he fell off the Train into the deep Desert heat.

A Choice of Paths

This big Boulder won't budge, and it looks mighty peculiar, as well. Shoot at it several times and it will disintegrate, revealing an underground alternative to the hotter high route. There's no scaring away the Scorpions—they're above and below, but you may escape the villainous Vultures.

There are no Vultures down here, but watch out for scads of sandy landslides.

Green River

Fievel finally gets to the Green River Stagecoach Stop. But it's misted over from Cat R. Waul's mousetrap! First, he must find the ferocious fiend. Fievel's final confrontation with Cat R. Waul makes or breaks the whole quest.

It appears that no one else dares brave the terrible terrors of the town Green River.

Many Dangers

Green River home to all Cat R. Waul's henchmen. Be prepared for a showdown with Cat Gangsters, a shootout with Snakes, and a barrage of Bombs falling from above. There are a few helpful Items if you look carefully.
**GIANT HAWK**

The Giant Hawk appears to be especially treacherous because this fight sequence utilizes the marvelous Mode 7 technology of the Super NES. The Hawk first appears as a silhouette in the moonlight, then swoops down in an attempt to make off with our hero. Your chance to shoot him is the moment he comes down to your level. Let him pass, then prepare for another fly by.

**DESERT AT NIGHT**

Though there are Buzzards to bother you, the Desert at night is lovely in the moonlight. Don't stand on the Cacti for more than a few seconds.

**SEARCH HIGH & LOW**

It's tempting to play it safe while searching the town of Green River for Cat R. Waul, but it's to your advantage to travel to the house tops, as there may be many items to aid in your quest.

Aha—a 1-Up! Who knows what other wonderful items are hidden high above?

**CAT R. WAUL**

Cat R. Waul first appears on the third floor. Ride his Top Hat and shoot at the face, then hop down again. Repeat this process until he comes down to the second and first floors, then finish him off!

Though the inside of the Saloon seems dark and creepy, press on, as Cat R. Waul is near.

Perfect timing is required when going up against the Giant Hawk. Shoot when he's on your plane.
When Sonic Blast Man first appeared on the scene, players had a chance to lead this powerful puncher against an army of wicked foes. Now the action heats up again and Sonic Blast Man's friends get into the fight, as well! Six big levels, two new characters and megatons of new moves help make this game a hit!

An awesome addition to Sonic Blast Man II is the Two-Player Mode.

Sonic Blast Man is a super choice for the blaster who's just a beginner, because he is a well-balanced fighter. He comes from the planet of Sonic Blast, where he received the Power Gloves and learned to perfect his punching skills.

3-WAY PUNCH
Because Sonic Blast Man's specialty is his powerful punching, this terrific technique will prove to be a simple yet effective attack.

SCREW ATTACK
Although the Sonic Screw is complicated on the Control Pad, it deals big damage. To try, press 'up', Button B and Y.

COMET BLASTER
To power-up that punch, try the Comet Blaster by pressing the Right or Left Button to charge-up, then Y. It will consume one Power Point.

BLAST BOMBER!
Perform the 100 megaton Blast Bomber exactly like the Comet Blaster, but press X instead of Y.

© 1994 Taito Corporation
SONIA

Sonic is also originally from the planet Sonic Blast. There she received the Power Shoes, making her the queen of kick. Although her attack power is lower than the others, she is very fast.

SPINNING FIRE KICK
Press Down, Up on the Control Pad, then Y and B at the same time and you'll likely get the fear of an unlucky loser.

FLYING KICK
On the Control Pad press Right twice, then X for a smashing kick that will slice, dice and pulverize your unsuspecting enemy.

HALF MOON KICK
Pressing X will send Sonia spinning into a Half Moon Kick. This technique works well against every foe except the bosses.

FIRE THROW
The Fire Throw works well when an enemy has invaded your personal space. Grab the guy, then press X to send him whirling away.

CAPTAIN CHOYEAR

Captain Choyear was a navy pilot until a near-fatal crash required a scientist to turn him into a cyborg to save his life. The Captain isn't quick, but makes up for it with masses of mechanical muscle.

GIGA CRUSHER
Grab an enemy and press X to crack his cranium with the Giga Crusher.

MEGA PUNCH
Press the Right or Left Button, then Y to let a Mega Punch fly.

BREAKER
Press Down and Up on the Control Pad, then Y and B to send the Breaker's abominable shooting barrel down on the bad guy.

ELECTRIC BEAM!
When things get sticky, perform the Mega Punch, but press X to zap the competition away.
STAGE 1

A. ARMORED ARMY
The best way to beat these well-protected pros is to get behind them and throw, although their Shields seem to be no match for Sonia's kick.

B. CANNON HAND
Cannon Hand will go off at the drop of a dime, so don't stand in the path of his shooting sphere. Instead, approach him from the side or from behind.

STAGE 2

ARNOLD
Stay light on your feet or Arnold will charge toward you! As soon as he shoots two missiles, he'll take a rest.

D. THE GOOD, THE BAD & THE UGLY
The gray Goons will sometimes leave useful items, like life-replenishing Burgers, upon their defeat. The red, one-eyed Ogres, however, leave nothing but a maiming mess as soon as they are touched. The blast can conveniently destroy other enemies, though.
IRON POWER

Stay clear of this wild one while he's whipping himself into a frenzy. As soon as he stops spinning, you'll have a chance to get him good. Otherwise, use a Special Power.

These buff bruisers have long arms, so watch out. When playing the two-player mode, there are twice the toughs to contend with!

E. SENDING IN REINFORCEMENTS

These slippy, shielded soldiers sure are sharper than the ones we met in Stage One, but they should be defeated the same way.

Point Item

Blast Items also can turn up in the most unlikely of places.

Stack up on Power Points because you won't want to get too close to this cracker!

These buff bruisers have long arms, so watch out. When playing the two-player mode, there are twice the toughs to contend with!

These slippy, shielded soldiers sure are sharper than the ones we met in Stage One, but they should be defeated the same way.

Choose an attack according to your needs. When fighting off multiple foes, try Sonia's Heat Smasher to wipe them out all at once.
The objective in Stage Three is to protect the "S" Port from Yafu's henchmen at all costs, because once they have the Port, they have it all! The Stages aren't getting any easier, and Stage Three is no exception, so begin battling!

A. CLOWNING AROUND

The funny business isn't very amusing when these clodhopping Clowns come on the scene. Keep both feet on the ground—if you hop, they'll have the advantage. A Special Skill will eliminate them fast.

B. THE BOSS IS BACK

The Stage One Boss is back, but you won't get in trouble, because he's merely a slower, weaker version of the former foe. Go for the gusto and tough it out with your tried and true techniques.

C. NEW CLOWN

This knife-throwing nuisance is not nearly as nice as his predecessor. Rather than keeping at a distance, grab him immediately to reduce chances of damage.

D. LONG WALK ON A SHORT PIER

There's a spot on the Pier where all the dangerous degenerates seem to appear at once. Have a supply of Power Points available and perform a Special Power right away. Once you get into it with the goons, though, the Special Power will lose its strength. Use it or lose it!
**ROBO ANIMAL**

Robo-Animal is as mean and tough as they come, but at least he is only able to attack by rushing in toward you. Get into the swing of avoiding his oncoming charge while whomping him as you step aside.

Once he changes color, the real Robo-Animal rears his ugly head.

---

**OTHER STAGES**

The action and excitement certainly don’t stop here—there are many more monsters remaining to manhandle and mash! Muster your marvelous mettle and carry on in the name of freedom and justice for all!

**STAGE 4**

In Stage Four, you must breach the barriers of the Jungle Base, because it is the link to the secret Space Base of Operations. Your mission is nearly complete!

The Stage Four Boss is a master of disguises. He first appears as a Tyrannosaurus Rex!

---

**STAGE 5**

Once the Stage Four boss has been beaten, the Sonic Blast Man Team will be whisked away to the enemy’s nerve center—the Alien Base in Space!

Is this the wicked one himself? You’ll know for sure after some skillful playing!
We left our intrepid travelers last month in the Wind Palace, learning the spells of Sylphid, the Wind Elemental. This month, they'll put those new spells to good use as they leave the Sprite's village behind and set off in search of a white dragon that the Sprite Elder told them existed, if only in legend. Their journey will take them to far-off lands, where they'll meet friends and enemies unlike any other they've ever known. This installment of the Traveler's Log begins with Day 19.

MATANGO

The Girl used Sylphid's Analyzer Spell to determine that Sylphid's magic would remove the Orb that blocked our path. The Sprite tried Sylphid's Air Blast spell, and, sure enough, it made the Orb disappear into thin air.

The woods beyond the Orb were teeming with dangerous wildlife, such as Crawlers, Steamed Crabs and Nemesis Owls. If we stopped to rest, they attacked in packs.
KING TRUFFLE

We were directed to Fung Castle, where we met King Truffle. One of his subjects had reported seeing a white dragon battling a huge snake. He beseeched us to save the legendary dragon.

DAY 20

After removing the Orb, we took the first path that led to the east, then we went south around a small lake before heading north towards the cave.

CANNON TRAVEL

We took a wrong turn and found a branch of Cannon Travel. Even though we didn't want to leave the area, it was good to know where the travel office was.

THE CAVE

Finally, the cave! Inside there was a Kimono Bird, and it kept conjuring up Pebblers. I grabbed the Stout Axe and hacked down the stalagmites that blocked the way.

DAY 21

When we emerged from the castle, we could hardly believe our eyes. We had found an underground empire that sparkled like a giant jewel, and there were mushroom people toddling around. The ones we spoke to proclaimed that they were a peaceful people who had no use for weapons or war.

THE GREAT VIPER

The giant snake slithered in and out of the underbrush. The Sprite countered its attacks by casting the Thunderbolt spell.

WHITE DRAGON

After we slew the Great Viper, we walked north to its lair, where we found the white dragon. It was young and weak, so we knew that if we left it there alone, it would perish. We decided to take it back to King Truffle.
SPEARS

My weapon collection would have been incomplete without the spear, an ancient weapon that had its uses in my time, especially in hand-to-hand combat.

SPARK SPEAR

Luka gave me my first Spear as I was about to leave the Water Palace. Crafted in bronze, it was lightweight and easy to handle. Although it wasn't very powerful, I learned basic defensive moves using the Spear.

HEAVY SPEAR

A step up from the first Spear I used, the Heavy Spear was also better suited to practice than battle. I used it early in our adventure to slay weak enemies.

SPRITE SPEAR

The Sprite Spear once belonged to one of the guards of the Witch's Castle. When I equipped this enchanted weapon, I could nap my enemies in big Balloons.

PARTISAN

I used the Partisan not only to impale but also to slash enemies. It had a razor-sharp tip.

HALBERD

The Halberd was useful for striking, slashing, and hooking enemies. It also held the power to confuse them, causing them to lose their sense of direction. It was a handy weapon.

OCEANID SPEAR

The Oceanid Spear's tip was crafted of coral, which became superheated during battle. I used it to spear enemies. This spear also had the power to put foes to sleep.

DRAGONON LANCE

The spirit of a mighty dragon, with all its awesome power sealed inside this Dragon Lance. It was my weapon of choice when I came face to snout with fire-breathing dragons.

RETURN TO MATANGO

When we returned to Matango with the young, white dragon, King Truffle offered to take care of it until it was older. In its weakened state, the dragon would only have been a burden to us. The king told us that we should search for the Fire Palace in Kakkara Desert.

So we left the young dragon in the capable care of King Truffle and took our leave of the sparkling city of Matango.

CANNON TRAVEL

King Truffle told us to return to the branch of Cannon Travel that we'd happened upon earlier. The proprietor offered to send us to either Kakkara Desert or the Ice Country. We followed the king's suggestion and set out for the desert.

DESSERT DESTINATION

The desert where Cannon Travel dropped us off was barren and deserted, except for Sand Stingers and Pebblers. We were already very thirsty, so we set out to find water right away. One sand dune looked just like the next. In no time, we were hopelessly lost—and we were growing thirstier with every step we took.
hen we first saw the Sand Ship, we thought that it was a mirage, but when we reached its steps and actually reached out and touched them, we knew that it was real—and that we were saved. Our relief was short-lived, though.

**SERGO**

One of the prisoners told me that this was the Republic's Sand Ship.

An imprisoned pirate named Sergo helped me escape. He yelled "Fire!" to distract the guards while I sneaked up the stairs.

I found the Sprite in the galley. It'd eaten all of the food, so they were glad to be rid of it. We found a door that led to a room where the Girl was.

**SLAVE LABOR**

The guards on the ship thought we were imperial spies! They separated the three of us. I don't know where they took the Girl or the Sprite, but they put me to work in the Engine Room—and I wasn't the only one there. Other people they'd picked up in the desert were being forced to work as slaves there, too.

**GESHTAR**

When we returned to the deck, we met Geshtar, of all people. I didn't know how he got there, and he was in no mood to explain. He mounted his Mechcycle and attacked us. We had no choice but to fight back. The Sprite used Thunderbolt Magic, I used my weapons and the Girl used Cure spells.

Geshtar struck quickly then sped off on his Mechcycle. When he disappeared, the Girl would cast her Cure Spell to restore our health before he returned.
**JAVELINS**

I found the various Javelins to be useful and effective, especially in hand-to-hand combat. Some had magical powers that helped me in battle, too.

**POLE DART**

After we destroyed the Temple and rescued Undine, the Water Elemental, she taught us her special magic spells and gave us the Pole Dart. We practiced the art of parrying with this lightweight javelin.

**JAVELIN**

We each took turns using the Javelins, so we would build our experience levels with that type of weapon. Although it wasn't particularly powerful, we could move quickly when carrying it, and we could strike accurately with it.

**LIGHT TRIDENT**

The Light Trident was no friend to birds or beasts, for it was especially powerful against them. I gained much experience using this weapon in battles with animals.

**FORK OF HOPE**

Much heavier and more powerful than the Lode Javelin, the Fork of Hope featured a silver tip that was capable of deflecting evil spirits. I used it against the undead.

**IMP'S FORK**

Like the Lode Javelin, only more powerful, the Imp's Fork had the power to capture and immobilize enemies. A silver tip was decorated with a mysterious and macabre skull.

**ELF'S HARPOON**

The twin asps entwined on the tip of the Elf's Harpoon were still and silent until they recognized an enemy, at which time they came to life and attacked with fury.

**DRAGON DART**

When I threw this amazing dart, it followed the enemy as though it had a mind of its own and connected with alarming speed. It was the best weapon to use against dragons.

**DAY 23**

After we battled Geshtar, he took off and left the entire party stranded in the desert. I talked to each of the crew members, and one of them told me that if we headed toward the north, we would run into a village. We set out to find it.

**KAKKARA VILLAGE**

Here was a nice inn in the village. We spent the night, then in the morning we talked to the villagers. All of the water in the town had dried up. They didn't know what was wrong, but Ema had told them that the Mana Seed had been stolen from the Fire Palace to the west, and the keeper of the Palace, Salamando, was missing, too.

**DAY 24**

A villager told us about a town in the Ice Country that was as warm as the desert. We went to Cannon Travel and hitched a ride to the Ice Country to investigate.
We peeked into all of the little houses. In one of them, we found Watts! He had traveled here from Kakkara Village, too.

REINDEER

to the west, we met a red-nosed reindeer that had lost its master. We didn’t know who he might be, but we offered to look.

CANNON TRAVEL

We found the Spear’s Orb inside the reindeer’s house, then we traveled south. We came upon another Cannon Travel station, but we weren’t ready to leave Ice Country.

BORREAL FACE

As we were wandering in the Ice Forest, we suddenly found ourselves at a dead end. Just as suddenly, a massive plant that looked much like the Tropicallo we battled in Gaia’s Navel appeared, and it started lobbing Pumpkin Bombs at us. Sylphid’s Analyzer Spell told us that the mutant foliage feared Salamando’s Magic—which we didn’t have. The Sprite used Earth Slide, and I powered up my weapon to its most powerful point to inflict the most damage I could with every blow. Still, it was a fierce battle.

The Boreal Face tunneled up out of the snow right under our feet! It took all of our strength—and a lot of the Girl’s healing magic—to beat it.

The Shop here sold many of the same wares that we’d seen in Kakkara Village. We hoped to buy enough Golden Vests for everyone.
**BOWS**

Even though I wasn’t a particularly skilled archer, I often armed myself with a Bow for protection as I traveled. Being able to attack enemies as they approached saved me on more than one occasion.

**CHOBIN’S BOW**
The Dwarf Chief from Dwarf’s Naval stole this bow, which wasn’t very powerful, from Chobin.

**LONG BOW**
The Long Bow was an amazing work of art. It was seven feet long and capable of shooting arrows great distances.

**GREAT BOW**
The Great Bow was a powerful and accurate crossbow. It had the special ability to confuse enemies.

**BOW OF HOPE**
This special bow worked extremely well against demons and undead. It fired silver-tipped arrows that were hot enough to cause mass panic when they found their marks.

**ELFIN BOW**
A valiant elfin knight once owned this fine bow, but I was able to master it, too. When I equipped it, it increased my agility and wisdom, making me a more formidable opponent.

**WING BOW**
It took 27 craftsmen four years to create this fine bow, which had a range of more than half a mile. It could penetrate even metal.

**DOOM BOW**
Enemies feared this weapon, and often fled when they saw it. It had many powers, among them the ability to slow or completely block the enemies healing powers.

**SHORT BOW**
Even though it was crafted from forged steel, the Short Bow lacked the power to beat difficult enemies.

**THE HIDDEN PARADISE**

After destroying the Boreal Face, the woods to the north opened, creating a path that led to a warm, hidden paradise. We thought it odd that such a pleasant place could exist surrounded by ice, but the villagers didn’t question their fortunate weather. When one of them asked us to watch the stove, we became even more suspicious. We heard a strange sound coming from the stove, and when we opened it, a flaming being burst out!

**DAY 26**

Still seeking the red-nosed reindeer’s missing master, we headed north from the village into another section of Ice Forest, where we encountered a slew of enemies, the likes of which we’d never seen before. We were fascinated with the new powers that Salamando had given us. The Girl and the Sprite practiced casting their new spells until they were proficient as using them, then we continued our search. In one opening in the trees, we met Neko, who was hawking a new set of wares. On our way through the woods, we’d run low on supplies, so Neko was a sight for sore eyes. Even though his goods were expensive, we were glad to pay the price, for they were the only wares in the area. We stocked up before heading to another opening in the east, where we found the entrance to the Ice Palace.
their Salamando Magic to attack him. It soon melted the frosty beast.

SANTA?

He Frost Gigas suddenly changed, and we couldn’t believe our eyes. He became Santa, who told us how he had tried to use the Mana Seed to make the ultimate Christmas tree. Using the Seed incorrectly had made him a beast!

THE ICE PALACE

Hellblasts guarded the Ice Palace entrance. We tried to enter using the center hallway, but it closed as we approached.

There were two narrow halls, one to the left of the main hallway, the other to the right.

FROST GIGAS

We finally met the monster we’d heard so much about. It was a fearsome Frost Gigas, a big, blue beast that cast powerful Ice Saber and Acid Storm spells. His weakness was fire, so the Sprite and the Girl used

TONPOLE TRIO

After fighting through Mystic Books and Spectres, we dropped into a room full of Tonpoles.

These Tonpoles looked just like the one we fought near the Water Palace, so we knew they’d turn into Biting Lizards before the fight was over. We took them on one-by-one, concentrating our efforts on a single lizard at a time.
The wooden I Chakram featured four sharp blades. It was effective against Slimes and Lizards.

The lightweight basic Boomerang had little power to damage enemies, but it did at least stun them for a moment so I could prepare to fight. I used it for practice.

The sharp blade attached to the outer edge of the Lode Boomerang inflicted sufficient damage to destroy the weaker monsters I met.

The huge Red Cleaver was able to fly great distances because it was crafted from an ultra-lightweight metal. I used it to battle insects.

This sharp, swift disc rotated 10,000 times per minute and slashed enemies to shreds. It was specially effective against Slimes and Lizards.

Although it was very thin and light, the Rising Sun flew swiftly and could leave enemies in half.

The Cobra Shuttle had special powers. I could poison enemies and attack silently from a great distance with it.

Once the property of a great hero, the Shuriken had mysterious powers. I was able to attack with incredible accuracy using the razor-sharp star.

After building experience in the ice Country, we followed Santa's advice and returned to Kakkara Desert to restore the Maru Seed to its rightful place. We found the entrance to the Fire Palace northwest of Kakkara Village; inside, the intense heat nearly overwhelmed us.
**THE MINOTAUR**

The Minotaur fought our way to the inner sanctum of the Fire Palace, where we met the Minotaur. I knew that we had to destroy him before we could seal the Mana Seed.

We dodged quickly to avoid the Minotaur’s long, sharp horns. I thought it wise to keep our distance, so we relied on magic for our attacks.

**SOUTHTOWN**

We chose Cannon Travel’s new destination and landed in Southtown, a small village with close-mouthed inhabitants. One of them told us about a weird woman who lived in a house on the west side of town. We decided to pay her a visit to see what was so weird about her.

**TO THE EMPIRE**

When our party returned to Kakka Village, the people were talking about a place called the Empire, and Cannon Travel now listed it as a destination.

**DAY 28**

**MARÁ’S MESSAGE**

The woman’s name was Mara, and she claimed to be a spy. We don’t know whether or not she really was, but she did give us a password that she said would get us to Resistance Headquarters in Northtown.

**RESISTANCE HEADQUARTERS**

When we told the guard in Southtown the password, he stepped aside and let us to enter the sewer, which was really a secret passage. It was a confusing maze, but we finally found our way to its exit. Mara had told us the truth! We stepped out into Resistance Headquarters, where we met the Resistance leader, Krissie. At first, she thought that we must be spies.

When we told her that we knew about Dyluck, Krissie believed that we weren’t spies after all.
GLOVES

The glove weapons were useful for fighting in close quarters, and many of them held magical powers, as well. Learning to use them all made us well-prepared, versatile fighters.

SPIKE KNUCKLE

Even though it was the weakest of the gloves, the Spike Knuckle doubled my punch power, nevertheless. When I equipped the spiky fist, it made weak enemies think twice about picking a fight with me.

POWER GLOVE

The Power Glove was slightly more powerful than the Spike Knuckle, and it had special strength against the insects and crustaceans I met early in my adventure.

MOOGLE CLAW

Three claws from a Moogle were sewn onto this leather glove. Wearing it, I could put my enemies to sleep. It was a "handy" weapon, indeed.

CHAKRA HAND

The spirit of a martial arts master had been sealed inside this leather bracelets, and it was said to give it special strength. Wearing the gleaming Chakra Hand increased my strength and wisdom.

HEAVY GLOVE

Originally worn for self-defense, the Heavy Glove later became an offensive weapon when spikes were added to it. It was good for attacking insects.

HYPER FIST

I was told that the Hyper Fist once belonged to an assassin who committed countless murderous using the terrible glove. It was effective against Slimes.

GRiffin CLAW

A trio of talons from the now-extinct Griffin were attached to this metallic glove. Few monsters could evade my terrifying grasp when I wore the mighty Griffin Claw.

DRAGoN CLAWS

Fashioned from the steely scales and super sharp claws of a dragon, the Dragon Claws could pierce even the thickest and toughest skin.

DAY 29

NORTHTOWN

After talking to everyone in Resistance Headquarters, we ventured out onto the streets of Northtown, a bustling city with many shops and homes. We stopped off at a Shop that had more powerful armor than we'd seen before, so we bought all that we could afford before moving on.

THE EMPIRE RUINS

The Resistance had told us that Dyluck was up to evil tricks in the nearby ruins, so we went to investigate. On the way, we met Phanna, who seemed to be in a trance. Krissie took her back to town while we continued into the fog-shrouded ruins to find out what mysterious force was at work there.

DOOM'S WALL

Our final challenge in the ruins was Doom's Wall, which looked like the Wall Face that we fought in Pandora Ruins. The Girl used the Analyzer to determine that its weakness was Lumina Magic. Unfortunately, we had none.

The Sprite's Earth Slide spell had worked against the Wall Face, so we tried it on Doom's Wall. It worked well here, too, so we concentrated all of our energy on the wall's center eye. The Girl kept
he Sprite and I went behind the altar and through the door. There we met Thanatos, who attempted to take control of the Girl. Dyluck resisted, though, angering Thanatos. He left us to the mercy of his Vampire, a frightful creature that cast dreadful spells and tried to suck the life from each of us.

After dooming the wall, we discovered Dyluck. The Girl was ecstatic when she saw him, but it was soon apparent that he was not himself. He drained the Girl's energy, then told the Sprite and me to go through the door ahead.

What would become of Dyluck? Thanatos disappeared into thin air, with luckless Dyluck in tow. Because he had saved her, the Girl was more determined than ever to rescue him, but where had they gone? Where would we look for an invisible force? And what other evil forces were at work in the world of Mana? I know that strange forces are at work, Journal. I'll write more later.
From Agent #491

Extra Continues

Agent #491 has found a big-top full of codes for Aero the Acro-Bat by Sunsoft. You can improve your chances of finishing all of Aero's high jinks when you have five extra Continues. When you first turn on the game, wait until the Title Screen appears, then quickly press X, Y, B, A, X, A, B, Y, Up and the L Button. When the Continue Screen appears, you will get 5 Continues instead of the normal three.

Press X, Y, B, A, X, A, B, Y, Up, then L.

Level Skip

With this tricky series of codes, you can skip any level of the game. When the Start Screen appears, press Down, A, Down, Y, Down, A, Down, Y, then start a new game. Pause the game as you can, then press Up, X, Down, B, Left, Y, Right, A, L and R. Now when you pause the game, you can skip to the next level by pressing the Select Button. This code is tricky, but you can explore the entire game if you enter it correctly.

Press X, Y, B, A, X, A, B, Y, Up, then L.

From Agent #770

Invincibility Code

If you are having trouble getting past any of the Pink Panther's enemies, try this easy trick. When you are playing the game, plug in Controller II and have it ready to use. When you reach the area that is giving you trouble, hold the L Button on Controller II. As long as you have the L Button held down, you will be invincible. After you get past the tricky area, you can continue playing as normal.

While you're playing the game, hold the R Button on Controller II.

Super Slow-Motion

This unusual code doesn't help much when you're playing the game, but it is a neat trick to play around with. Anytime during the game, hold down the R Button on Controller II. At first, it will look like the game has been paused, but if you continue to watch the screen, you'll notice that the game has been set at super slow-motion. It's impossible to play the game like this, but it's cool to watch.

All the action on the screen will run at a super slow motion speed.
From Agent #133

Invincibility Code

Agent #133 has found two codes for Wolfenstein 3-D that will help any player finish it. If you find yourself getting damaged by enemy attacks, try using this invincibility code. When you are getting ready to play, hold the R Button on Controller I then turn on the power to your Super NES. When the Title Screen appears, release the R Button and start a new game. Pause the game then press B, Up, B and A. When you continue playing, your enemies can't hurt you!

If you want to skip to the next level press the game and press Up, B, R, then B.

When you resume playing, you'll skip to the end of the stage.

Pause the game then press B, Up, B, and A on Controller I.

When you resume playing you'll be invincible to all attacks.

Level Exit

Have you been through the first few levels of the game way too many times? Then this code is for you! Before you start playing, hold the R Button on Controller I then turn on the power to your Super NES. When the Title Screen appears, release the button and begin playing a new game. Anytime that you want to skip to the next level, pause the game and press Up, B, R, then B. When you resume playing you will skip to the next stage.

Before you begin playing the game, hold the R Button then turn on the power.

Release the R Button when the Title Screen appears, and begin a new game.

Ducks Galore

Duck Dodgers never had it so easy! When you use this great code, discovered by Agent #123, you can try to foil Marvin Martian's evil plans with 50 ducks in reserve. To enter the code, begin a new game, and when the screen reads, "Where there's duck, there's fire," appears, press Left, Left, Right, Right, Up, Down, Y, A, B and X. If you enter the code correctly, you will hear a voice say, "Mother.

Left, Left, Right, Right, Up, Down, Y, A, B and X.

This game can be tough when you only have a few ducks.

When the Title Screen appears, press Start and begin a new game.

Where there's Duck, there's Fire

When this screen appears, enter the Extra Duck Code.

If you hear a voice say, "Mother," you'll start the game with 50 extra ducks.
Games Change Code
If you have already mastered MLBPA Baseball by Electronic Arts, then these game altering codes are for you! You can change many of the elements of the game by entering any of these special passwords at the Resume Season screen. After entering the code, begin a new game and start playing. For added challenge, you can use several of these codes at the same time.

For a lighter fielding challenge, use BRRR as your password.
The field won't change color, but the ball will slide as if it were made of ice.

From Agent #926
Day of the Tentacle
With all of the zany fun of Zombies Ate My Neighbors, many players never realize that they miss the very first Bonus Round in the game. Enter BCDF on the Password Screen and you will begin the game at the Bonus Round. Collect all of the Power-Ups then continue playing the game as normal. Shoot the hedge at the top of Stage 1 with the Bazooka to enter the Bonus Round again.

For the ultimate challenge, enter the password NNTH.
You will begin in the bottom of the ninth, four runs behind.

Enter BCDF as your password, then Stage

You will begin the game at the “Day of the Tentacle” Bonus Round.

After finishing the Bonus Round, continue playing the game as normal.
Bosses' Moves

It is possible to play as the powerful bosses in Fatal Fury 2 if you use the code that was printed in last month's Nintendo Power. But if you want the bosses' special moves you'll need this month's magazine. The directions work when you are on the right side of the screen, so reverse them if you are on the left side. With practice you can master these great attacks!

If you wander around in the Crystal Maze, you're sure to be caught by Doth, its all-seeing guardian. To reach the center of the maze without being caught, follow these steps: Walk Up 7 steps, Right 2, Left 2, Up 2, Left 2, Down 1 and Left 2. Next, go Up 1, Left 2, Up 2, Right 3, Up 2, Left 1, Up 2 and Right 2. Continue Up 5, Right 1, Left 1, Right 1, Left 1, Right 1, Left 1, Right 1 and Right 1. Now walk Up 3, Right 2, Down 2, Right 1, Left 1 and Down 3. Finally, go Left 1 and Down 5 to the center of the maze.

When you reach the center of the maze and answer the two questions, you'll get the Spirit Magic Spell. When you get there, you'll have to answer two questions. The answer to the first is "F," the answer to the second is "E." When you answer both questions correctly, you'll get the Spirit Magic Spell, which you can use to defeat Doth.

Sophie's Boots are in the vast area of the Ancient Dungeon, where you'll find the four Crest Doors. Go through the Sky Crest Door to reach the Life-form Research Laboratory and find the elevator in the upper right corner. Ride it up one floor, exit and walk through the wall on the left. Open the Treasure Chest there to find Sophie's Boots.
**WHERE DO I FIND THE LAST EGG?**

Although the Eggs aren't numbered and you can find them in any order, the one that most people have problems finding is in the southeast corner of the island. It's east of the Helipad in a maze of trees and bushes. You must walk through what appears to be a wall of trees to find it. Walk east from the Helipad until you reach the trees, then go up to the riverbed. Walk to the right then down, pushing on the trees on your right as you go. When you push the correct tree, you'll find a hidden path that leads over and up to the Egg.

**WHERE IS DENNIS NEDRY'S I.D. CARD?**

Nedry's I.D. card is in the Beach Utility Shed, which is located in the southwest corner of the island. Go up and left from the Main Gate to enter the southwest forest, then head due south to find the shed. You'll find the card on the ground level of the shed, in a room in the upper left corner. Retrieve the card, exit the shed, and walk back up and over to the Visitors' Center. You'll need to use the card to open the door to a secure area of the building.

**HOW DO I KEEP RAPTORS OUT OF THE VISITORS' CENTER?**

You'll have to block the door leading from the Raptor Pen into the Visitors' Center. First, be sure that you've re-booted the main computer, then go to the lower level of the Raptor Pen and locate the large, wooden crate. Stand so that you can see the elevator door on the opposite side of the room, then begin pushing the crate. Slide it into position in the doorway in order to block it off. The main computer must be re-booted before the crate will move.

Go to the lower level of the Raptor Pen and find the crate. Stand so that you're facing the elevator.

If you've re-booted the main computer, the crate will move. Slide it into the doorway to pen the Raptors in.

Go up and left from the Main Gate to find the forest, then head south to the Beach Utility Shed.

Pick up the I.D. Card in the upper left room and take it back to open the door in the Visitors' Center.

**HOW DO I EARN A "PERFECT" FOR PUZZLE LEVEL 11?**

**Turn the first piece clockwise one time, then move it to the right two spaces.** As soon as the first section lands, move the white block all the way to the left, against the wall. When it reaches the bottom of the screen, slide it right two spaces, next to the flashing bomb. **Turn the second piece clockwise once, then let it fall.** When the first section lands, move the white block left to the wall and let it drop. As it nears the bottom, move it right, next to the block you placed earlier. Now watch the bombs disappear to clear the level. Perfect!

**WHAT'S THE "PERFECT" SOLUTION TO PUZZLE LEVEL 13?**

**Make two clockwise turns with the first piece, then move it to the left, against the wall, and let it fall.** Turn the second piece clockwise once and let it drop. When the first part of the piece lands, quickly move the remaining blocks left three spaces. When they fall into place, they'll clear the screen and you'll have a perfect solution to the puzzle.

**HOW CAN I RATE "PERFECT" ON LEVEL 28?**

**Turn the first piece clockwise once, then move it left to the wall and let it drop.** Rotate the second piece clockwise one turn, then slide it right to the wall and let it fall. **Turn the third piece clockwise once, let it drop until it's one space from the bottom, then rotate it clockwise once more.** Turn the fourth piece counter-clockwise once, then move it one space to the left and drop it for the perfect solution.

---

**Flip the first piece clockwise, move it to the right, then slide the white block left to the wall.**

**Before the white block lands at the bottom of the screen, slide it right, against the flashing bomb.**

**Turn the second piece clockwise and let it fall.** Put this white block next to the other one.

**Make two quick clockwise turns with the first piece, then slide it left to the wall and let it fall.**

**Turn the second piece once.** After its first section lands, move the other blocks to the left.

**Turn the first piece and put it next to the left wall, then turn the second and put it next to the right wall.**

**Rotate the third piece one turn, let it fall to within one space of the bottom and turn it again.**

**Turn the last piece counter-clockwise and move it left one space.** It's the perfect solution.
**DONKEY KONG**

**How Do I Reach Higher Ledges When I'm Carrying The Key?**

When you're carrying the Key, you can't jump as high as you usually can, and you can't climb ladders, either. To get both the Key and yourself up to high ledges, you'll have to throw it up first. Hold the Key, jump as high as you can and throw it onto the ledge. If there's a ladder, you'll be able to climb it without the Key. If there is no ladder, either do a back flip or jump from a handstand up to the ledge.

**How Can I Make The Arrow Blocks Last Longer?**

There are a couple of strategies that will help you use Arrow Blocks to your best advantage. The first won't actually make the blocks last longer, but it will help you decide where to place them. When you pick an Arrow Block up, the screen will freeze and you'll can place the block wherever you want it. When placing it, remember that they begin to disappear in the same direction that they appeared. For example, if you place a block so that it stretches from right to left as it grows, when it disappears, it will disappear from right to left, as well. Consider which direction of growth will be most helpful, then place the block so that it will still be in the space where you need it when you need it. Another strategy is to use two blocks together. If you place two of them, one right after the other, the first one won't begin to disappear until the second one you placed is gone, so you can actually make the first one last longer than it would if you placed it alone.

Welcome to Middle-earth, home of hobbits, wizards, elves and a darker side ruled by Sauron who covets his lost ring. Interplay's adventure conveys much of the feeling of Tolkien's stories by loosely following the events through about half of the journey to Mordor. The overhead view allows for hours of exploration, item-collecting and puzzle-solving. Your hobbits and their companions must face the dangers of the Old Forest, Barrow Downs, Wilderland (Troll Shaws), and the Mines of Moria. Fighting off the creatures of Mordor won't be easy, either, but your fellowship will gain strength from each victory. Fans of the Lord of the Rings will find much that is familiar in this game, but Interplay has varied the events enough to keep you on your furry toes. Be sure to start your journey in Middle-earth with the review and maps in this issue of Power.

**STUNT RACE FX**

It's finally here, and the wait for Stunt Race FX was well worth it. Nintendo spent the extra time in development to ensure that this racer would be more than a quick trip around the course. The variety of tracks, vehicles and modes will keep players riveted until the cows not only come home, but brush their teeth and hobble off to bed. Use of the Super FX chip means extra special effects are possible. The 3-D polygon environment scrolls and scales with precision unmatched in other racing games, making for the most involving on-track experience. The two-player, simultaneous mode lets you go head-to-head with a buddy while the Stunt Trax pits you against some of the most torturous courses any driver is likely to encounter.

**LORD OF THE RINGS, VOL. I**

- Feels truly Tolkien-esque in the graphics and story. The multiplayer option makes for a great alternative way to play the game. An excellent musical score and sound quality Tolkien fans should celebrate!
- Awkward play control when fighting. Control with the Super NES Mouse is very poor. Extreme patience is necessary when exploring interior areas, and mapping skills are useful

- It's easy to get the hang of the controls. Fast and fun. Excellent graphics and depth of play. Two-player simultaneous mode. Battery backed up memory. Good sound.
- After crashes, you may find yourself disoriented as the viewpoint of your vehicle may not be what you expected. The stunts aren't quite the loop-to-loop daredevil stuff you might expect.
R-TYPE III

Company: Jaleco
Suggested Retail Price: Not Available
Release Date: August/September 1994
Memory Size: 16 Megabits
Game Type: ...Shooting for two players in alternating action

R-Type fans have probably been wondering whatever happened to R-Type III from Irem, which was supposed to reach the stores last March. Well, as fate would have it, Irem closed its doors and sold the game to Jaleco. What Jaleco received is one of the best space shooters ever. The graphics include some spectacular Mode 7 effects, giant enemies, fast scrolling action and other special visual gizmos. The play is also sharp in six levels of very challenging action. To get a closer look at this game, hunt up a copy of Nintendo Power Volume 58 from last March.

AN AMERICAN TAIL: FIEVEL GOES WEST

Company: Hudson Soft
Suggested Retail Price: $59.95
Release Date: August 1994
Memory Size: 8 Megabits
Game Type: ...Cartoon action for one mouse (or person)

America's favorite young mouse-in-trouble, Fivel, gets himself in hot water with every step in Hudson's action game based on the animated movie of the same title. Fivel, alone in New York, must work his way West over back alley clotheslines and down in the sewers, at least until he gets past Jersey. Then the variety starts turning wild and wooly with rattlesnakes and sharp shooters as he heads West to save his family from the notorious Cat R. Waul.

SPEED RACER

Company: Accolade
Suggested Retail Price: $69.95
Release Date: August 1994
Memory Size: 16 Megabits
Game Type: ...Racing and action for one player

Speed Racer has enjoyed an almost fanatic popularity over the years as a syndicated cartoon. Now Accolade brings the beloved character to the Super NES. In the opening sequence, you'll steer Speed's racer, the Mach 5, over a twisting, 3-D highway course, collecting Boosters and battling to stay in the lead. After winning the race, a cinema scene fills you in on the story so far. Then you shift into the action adventure mode of the game, controlling Speed who can run, climb, punch, kick and get heated up. Although such fights often occurred in the television episodes, these video game action stages look like video game graphics, not the cartoon. After taking some abuse at the hands and guns of random thugs, it's time to hop back into the racer and burn rubber, then duke it out some more, and so on, and so on.

KING OF THE MONSTERS 2

Company: Takara
Suggested Retail Price: $64.99
Release Date: June 1994
Memory Size: 16 Megabits
Game Type: Monster fighting and city stamping for one or two players

Although King of the Monsters 2 came out in June (also see the June Now Playing section,) Nintendo Power didn't have space to cover it in a review until now. Takara gives you the chance to follow in the footsteps of Godzilla and battle super mutant creatures and robots. Corny, sure, but also fun.

VOLUME 63 69
SONIC BLASTMAN 2

Company ........................................... Taito
Suggested Retail Price ................................ Not Available
Release Date ..................................... August/September 1994
Memory Size ...................................... 12 Megabits
Game Type ....................................... Scrolling fighting for one or two players

Sonic Blastman returns for more power-punching and super-stomping in Taito’s sequel to last year’s surprise hit. Some Blastman may not have the rich comic book history of other super heroic types, but he has the moves, the courage, and, most importantly, the endless parade of enemies who want to silence his sonic blasts. This is serious side-scrolling fighting with a smidgin of humor, just like the original. Even better, this new version has a two-player option in which a second hero of justice can join in the fun. Sonia, the Blastlady, and Captain Choyear bring new talents to the quest. Each character has 15 different moves including the trademark sonic flurry punches.

+ Good graphics and play control. Two-player option

- Although the game is fun, don’t expect anything new in this sequel. Some stages almost seem to be repeats of the original game. Only five stages.

OPERATION THUNDERBOLT

Company ........................................... Taito
Suggested Retail Price ................................ Not Available
Release Date ..................................... August 1994
Memory Size ...................................... 10 Megabits
Game Type ....................................... Shooter for one player

It’s time to revisit the tumultuous Middle East where war hangs forever in the air like a stench of rottenness. If this target shooting game from Taito also reminds you of something unsavory, don’t be surprised. In this game, you are a special agent fighting kidnapping and terrorism in the region. After choosing your agent, you’ll be dropped inside enemy territory where you must succeed at several missions before moving on. The action consists of shooting everything, except civilians, as quickly as possible while remaining healthy, or at least alive. The scenes scroll both sideways and forward in the eight different stages. You can heal yourself by shooting Health Packs, and you can upgrade shots and armor. The best part of the game is the multi-player option, which allows two agents to blast away simultaneously and requires them to act cooperatively. Players have a choice of using the Super Scope, Super NES Mouse, or regular Controller.

- Play control with the regular controller is difficult. Use the Super NES Mouse for better results. Brutal theme and semi-realistic violence may offend some players. Not terribly challenging.

FIGHTER’S HISTORY

Company ........................................... Data East
Suggested Retail Price ................................ Not Available
Release Date ..................................... August 1994
Memory Size ...................................... 20 Megabits
Game Type ....................................... Tournament Fighting for one or two players

Data East’s entry into the crowded martial arts tournament, Fighter’s History, made some history of its own in the courtroom when a judge found that it did not infringe on Capcom’s copyrights for Street Fighter II. Players will certainly notice similarities between the games, however, just as they would note similarities between SF II and any of about a dozen other games. In the end, that lack of creativity is what makes Fighter’s History just another tournament fighter. The game contains one and two player modes. You can select speed, time limits and skill level. In the Survival mode, your fighter takes on five opponents in single match meetings. With nine fighters in the line-up, you can pick from a wide range of fighting strengths and weaknesses.

+ Good play control and graphics.

- Little originality. Data East may have won in the courts, but players won’t find many new features to recommend FH over SF II. Annoying sound track and poor voice.

IMPOSSIBLE MISSION 2025

Company ........................................... Microprose
Suggested Retail Price ................................ Not Available
Release Date ..................................... August 1994
Memory Size ...................................... 8 Megabits
Game Type ....................................... Action with puzzles for one player

+ Little originality. Data East may have won in the courts, but players won’t find many new features to recommend FH over SF II. Annoying sound track and poor voice.

- Good play control and graphics.

Little originality. Data East may have won in the courts, but players won’t find many new features to recommend FH over SF II. Annoying sound track and poor voice.
Impossibly Mission 2025 originated with home computers like the Amiga. It is a mix of action stages, arcade sequences and puzzles. One minute your character will be running, jumping and shooting to stay alive in a hostile, alien world, and the next, you'll be faced with an elegant logic puzzle or memory sequence of one sort or another. In the context of the game, the puzzles are part of a computer system that you must crack as you run and shoot. Microprose has even included the original game in this much-improved Super NES version. If you've played the original, expect much more sophisticated graphics and smoother play control. If you haven't, expect a game that is challenging to both action and puzzle fans.

- Good graphics and variety of play
- Very unforgiving. Much of the challenge is that the game allows only one hit.

It's been said that you can't keep a good man down, and that is doubly true of Superman. In Sunsoft's action-packed The Death and Return of Superman, he doesn't stay dead for long and, once he returns, he takes to the air to kick the collective can of crime. This game combines plots and themes from the Death of Superman and Reign of the Supermen series. In ten stages consisting of scrolling street fighting and flying shooter areas, you get to control the Eradicator, the Cyborg, the Man of Steel and Superboy in addition to the one and only Superman. Each of the super guys can fly, but each also has special moves. Cinema scenes reveal a story with some surprising twists.

- Excellent graphics, play control and a fun story line. Each of the superman has unique moves and super attacks
- Not as much variety or challenge as you might expect. Superman's flying attacks and heat-ray vision are very limited

Mindscape's Mario-based edutainment series continues with Mario's Early Years Fun With Numbers. This Super NES exploration of basic mathematic functions is released just in time for the new school year, so kids heading off to kindergarten can get a jump on the basics. With Mario as your guide and helper, you'll learn to recognize sets, numerals, geometric shapes and other concepts. The interface is geared to preschoolers and, unlike previous Mario edutainment games like Mario's Time Machine, the game is fairly easy to understand and control. This title should not be confused with any of Nintendo's Mario games which are known for lots of action, secret areas and traditional video game fun. This is serious business with a lighthearted approach.

- A colorful introduction to math for young children
- Limited exploration of mathematical concepts. Digitized speech is very stilted and awkward

The beast has a limited time to race through his castle and find true love. Armed only with his paws and roar, he must battle unsavory trespassers like spiders, bats and rats. You can take a closer look in this month's NES review.

- Fairly challenging and a good theme. The characters from the movie are integrated better in this version than in the Super NES version
- The graphics look particularly dated. Play control doesn't feel solid and hit detection seems off
ITCHY AND SCRATCHY IN MINIATURE GOLF MADNESS

Company ........................................ Acclaim
Suggested Retail Price .................................. $27.95
Release Date ........................................... August 1994
Memory Size ........................................... 1 Megabit
Game Type ............................................ Action for one player

You may have heard of a "scratch" golfer. Well, now there's a Scratchy golfer, and he isn't playing up to par. Throughout this oddball mix of action game hop and bop meets miniature golf, our character Scratchy is attacked by a crazed Itchy with axes, chain saws, missiles and assorted irritants. Luckily, you can fight back by picking up sledgehammers, bats or using your trusty putter. Although a delicate touch is sometimes necessary to hit the ball in the right spot, the real challenge is just staying alive in this pitch and putt nightmare. Check out the scorecard in this month's Game Boy review.

GOOD OR BAD:
A+ Good graphics. An unusual and fun game concept. It's also just twisted enough to capture the essence of Itchy & Scratchy
A- Play control, particularly the golfing aspect, is a bit limited. Timing your attacks can also be tricky

COOL SPOT

Company ........................................... Virgin Games
Suggested Retail Price .................................. Not Available
Release Date ........................................... August 1994
Memory Size ........................................... 1 Megabit
Game Type ............................................ Action for one player

Spot is back for Game Boy, this time in a game that borrows heavily from its Super NES big brother. Spot's day begins at the beach and passes through a dock, a toy chest, various bonus stages and more. He'll have to keep his cool when facing angry crabs or being whisked away inside a bubble. As in the original game, his goal is to rescue captured fellow Spots. This month's Power review highlights what's so cool about this Spot.

GOOD OR BAD:
A+ Very good graphics. Although it isn't a Super Game Boy version, it looks it. Bouncy and fun
A Some control problems, particularly hit detection. At some shooting angles you can't hit objects that are right in front of you

ELITE SOCCER

Company ........................................... GameTek
Suggested Retail Price .................................. Not Available
Release Date ........................................... August 1994
Memory Size ........................................... 1 Megabit
Game Type ............................................ Super Game Boy Soccer for one player

Soccer on Super Game Boy can be just as complex as the real thing. Elite Soccer includes many of the features of its Super NES big brother including 24 international teams, formation selections, attack strategies, and substitutions. You can challenge the computer to a single match, league schedule or a full, World Cup-type tournament. You can also practice your shooting skills in a one-on-one match. You can set your time duration, wind speed, weather conditions, and the size of your goalie's hands, which effects your defensive skill. Where this game falls short of its 16-bit counterpart is in the speed and flash. The speed seems slow. The flash, as in excitement generated by the game, is fairly low.

GOOD OR BAD:
A+ 24 international teams. Good options. Password save feature for tournament play. Player strengths in nine categories
A Poor use of Super Game Boy technology. No specialty border. Play and animation seems too slow

Heavy on RoboCop. Good graphics
A Light on the Terminator. Lack of any real strategy involved. Little challenge. Play control is very stiff and shooting can be difficult and hazardous when enemies are at certain angles
The official World Cup soccer game for Game Boy doesn’t use Super Game Boy palettes, sound or borders, but it does include Striker—the official mascot of the 1994 World Cup. It also includes the international field of contestants that are vying for the title. The view of the pitch is from straight overhead looking down at the players. Basically, you see players’ heads, shoulders, and the occasional leg during a kick. If you want a quick play, you can choose the shootout option. The highlight of the game is the official World Cup schedule that allows players to simulate the entire tournament right down to the eight arenas around the country. On field, the play includes officiating windows to let you know what penalties you’ve committed. When all is said and done, this Game Boy version has virtually none of the soccer look and feel that you’ll find in the Super NES version. In fact, the only thing the two games share is Striker, who is, ironically, a dog.
NBA All-Star Shaquille O'Neal is starring in his first video game, and guess what.....it's NOT a basketball game!

THE MAKING OF SHAQ FU

Electronic Arts will be bringing SHAQ FU to you soon. Delphine Software, a developer based in France, is creating it. Power takes an inside look at some of the processes involved in the creation of this hard-hitting game.

When he walks onto the basketball court, or anywhere else for that matter, people take notice. He's hard to miss! Standing over seven feet tall and weighing in at 303 pounds, Shaquille O'Neal is a seriously intimidating presence. In his first years as an NBA player, he's racked up some impressive statistics and has helped his team, the Orlando Magic, make it into the NBA Playoffs. He's been compared to such NBA greats as Wilt Chamberlain and Bill Russell, as well as modern-day pro hoop superstars like Hakeem Olajuwon and Patrick Ewing. We could rave on and on about Shaq's skills and awesome basketball prowess, but we'll leave that kind of stuff to Sports Illustrated. In the context of this article, we can now compare Shaq to the likes of Sagat, Guile, Johnny Cage, Terry Bogard, Bad Mr. Frosty and other powerhouse street fighters. Now there's a topic we can sink our teeth into! Luckily, Nintendo Power managed to obtain access to an early version of SHAQ FU. Even in the unfinished version as we saw it, the game showed promise. Knowing that Delphine Software, makers of Flashback and Out of This World, was programming it and Electronic Arts was marketing the game, we figured that a "Making Of" article would certainly be in order. It turns out that Shaq himself has committed quite a bit of time and effort to make this game a winner!
SHAQ FU'S story line goes something like this: Shaq is playing in a charity basketball tournament in Tokyo. He sneaks away from the crowds to go for a walk. Turning down an alleyway, he comes across a martial arts store and, being the martial arts fan that he is, decides to go inside for a look around. An old man confronts him and through some turns of events and twists in the conversation, the old man comes to believe that Shaq has arrived to fulfill a legendary prophecy. The Second World greets Shaq when he enters a mysterious doorway. Shaq finds himself thrown into predicaments that he must fight his way out of. More of the story line is revealed to the player as Shaq defeats each of his opponents. Suarez also told Nintendo Power that there may be some secret characters built into the game. We hope so! Secret and hidden stuff goes a long way to keep a game interesting. Just look at what it did for NBA JAM!
One of the most interesting things about how SHAQ FU was taken from the drawing board to the video screen is its use of rotoscoping. Delphine Software didn't invent the image-capturing technique, but according to Suarez, they "evolved the process" and have developed a tool that allows them to transfer, image by image, video sequences to computer graphics. Rotoscoping was actually invented by Walt Disney in the 1930s. In a nutshell, it involves filming a subject, human or otherwise, and then redrawing that subject using enough frames per second to make the drawn images appear smoothly animated. More than 40 hours of video was shot to capture all of the moves that the characters in the game make, but in the end, only a few minutes of video were incorporated into the game. Each fighter has about 50 different moves. Creating those moves called for some martial arts specialists. Rémy Julienne and his team of veteran stunt persons were called into the studio to execute the moves that Auroch, Kaori, Mephs, Vaudou Queen, Nezu, Beast and the other fighters will execute in the game. Julienne is very famous in Europe for his stunt work in the motion picture industry, but this was the first time that he had been called upon to lend a hand for a video game. Real-life, 3-D movements were captured by infra-red Acti-system video cameras.
WHEN IT'S TIME TO PLAY

Electronic Arts is hoping to have SHAQ FU on store shelves by the holiday season. Shaq's name alone should give the game very high visibility.

THE MAKING OF SHAQ FU

The images were then fed into Delphine's Silicon Graphics Indigo and Indigo 2 workstations to be detailed and compiled into the animated images that you will see in the game. Silicon Graphics computers are state-of-the-art, especially when talking about the manipulation of graphics. This is one of the major points that sets SHAQ FU apart from the rest.

THE FINISHING TOUCHES

Most of the elements of SHAQ FU are now in place. Perhaps the most difficult part of the creative process is taking place right now. Balancing and refining all of the moves and attacks for each of the fighters is a time-intensive task that requires many hours of programming adjustments and play testing. Shaq has been involved every step of the way. His enthusiasm for the game, combined with Electronic Arts' eagerness to promote the title, are what has allowed the project to come into being. But without the technical expertise that Delphine Software provided, the game would be just another basic street fighting game. Greg Suarez noted that, "Shaq helped develop the characters and the story line. He was really involved. The taunts are mostly Shaq's. He even helped with the music." Taunting, or daring your opponent to attack, is integral to the game play. In the version of the game that we played, the X button caused your fighter to make a motion as if he were saying "Bring it on!" Suarez went on to comment that "Satisfying Shaq fans as well as fighting game fans is a high priority with this project." Electronic Arts is also planning more games featuring Shaq. Who knows—maybe we'll even see a Shaq basketball game! That would be novel.

MORE ABOUT THE BIG GUY

Pick up Shaq Attaq, co-authored by Jack McCallum, and find out more about what Shaq is like. Look for it in most bookstores.

SHAQ ATTAAQ!

by SHAQUILLE O'NEAL
with JACK McCALLUM

The Orlando Magic have quite a magician on their team. Arguably, Shaquille O'Neal has achieved superstar status faster than any other NBA player in history. But with the talent, desire and physical abilities that Shaq possesses, it just easily fell into place. Or did it?
On the heels of Disney's Beauty and the Beast for the Super NES, Hudson Soft introduces an NES version that retells the classic story for 8-bit players. Although not as graphically impressive as its predecessor, this NES version is a similar gameplay experience.

THE ROSE WITHERS
Once upon a time, a selfish young prince turned away an old woman in need of shelter. The woman, who was in fact an enchantress, cast a spell on the prince, turning him into a frightful beast. He was destined to remain a beast until he could find someone who would love him as he was.

THE BEAST
The Beast can jump from ledge to ledge and punch to attack enemies. He can also let loose a fierce roar that will stun any enemies in the immediate area.

THE CREW
Some of the Beast's former friends appear in active roles in this version. Lumiere lights his way through darkened chambers, and portly Mrs. Potts supplies ammunition for him to use against enemies.

THE DRAMA
Before the enchantress departs, she leaves behind one fresh rose. The Beast must find true love before the bloom fades. Finding rose petals keeps it fresh.
LEVEL 1
PALACE HALLS

The Beast begins by searching the palace halls. We’ve shown only points of particular interest on the maps below. The wavy lines indicate that there is more to the map that’s not shown.

A BAT ATTACK
In the darkened hallways near the exit, you’ll have to wait for Lumiere to light the way. If you hurry on ahead, you’ll meet up with enemies that you won’t be able to see until Lumiere catches up with you. To exit, go to the door on the left.

B LUMIERE LIGHTS THE WAY

C THE RIGHT WAY

To find the stairs that lead to the exit door, you must find the passageway in the lower right. Before you climb up, explore the entire area to find the Hearts and Petals. There are Hearts on the final sets of stairs, too. Pick them up on your way to the exit.

D GARGOYLES!
The Gargoyles in the windows flanking the exit door come to life when you reach the landing. It will take a couple of hits to ground them, and they’re fast fliers. Strike quickly before they have the chance to dive at you.

E CURTAINS

You can climb the curtains to reach the upper levels. Try jumping and climbing up the ones that don’t reach all the way to the floor. They’re the ones that will take you up.

EN GARDE!
You must defeat a spear-toting, armored man before you can leave this area. Use the ammunition that Mrs. Potts gives you to attack.

LEVEL 1 MAP 1

LEVEL 1 MAP 2

LEVEL 1 MAP 3
LEVEL 2
THE FOREST

On your way to the frosty Forest region, you'll have to pass through a twisting, turning cave that's filled with rabid bats and razor-sharp spikes. To find the exit, look for a dark tunnel rather than the wooden doors you saw in the Palace areas.

FREE FALL
When you come to a dead end, climb the ledges that lead up towards the top of the cave, then work your way to the right. Instead of jumping over to the last ledge, drop through the final opening and hold Right on the Control Pad. You'll land on a lower ledge. Continue to the right, jumping over the spikes, until you come to the tunnel that is the exit. Your next stop is the Forest.

HANG TIME
You'll have to make some extra long jumps as you work your way through the Forest. Take off as late as possible, make fingertip grabs and pull yourself up onto distant platforms. Timing is critical.

WINTER WONDERS
Head to the right through this frozen, side-scrolling region. It's easy to slide off the icy platforms if you misjudge your landing, so leave yourself some extra space. If you fall, you'll be finished.

SNOW CAT
Take the offensive when fighting the cat creature here. If you punch just as it begins to appear, you can defeat it before it has the opportunity to inflict any damage on you. You will walk away without a scratch.
**LEVEL 3**

**THE LIBRARY**

Level 3 begins outdoors with a snowball fight but continues in the palace Library. Don’t count on being able to do any reading when you get there, though; the books leave the shelves only when they want to.

**FIGHT!**

Belle tosses snowballs faster and faster all the time, and you have to catch them. If you miss three, you’ll have to start over.

**HIT THE BOOKS**

The palace Library gives a whole new meaning to “hitting the books.” Watch out for evil volumes that crawl and fly at you.

**LEVEL 4**

**UP ON THE ROOF**

In Level 4, the Beast climbs the outer wall of the palace to reach the rooftops. Scaling the wall takes some clever maneuvering and skillful jumping.

**LEAP OF FAITH**

Make a blind jump here from the very edge of the ledge at the last moment. Grab the next ledge by your fingertips.

**GASTON**

After charging through the townspeople, you’ll scale the wall with Gaston in hot pursuit. Work your way back and forth up the wall while avoiding his arrows. Pause only long enough to get off shots of your own.

When you reach the roof, the fight with Gaston will begin in earnest.

**STORMY SKIES**

Inclement weather makes the climb even more treacherous. If you stand near the transformer, you’ll be struck by lightning.
Spot's challenge in Stage One is to dance through the dunes in search of 30 Cool Discs. Be especially aware of herds of Hermit Crabs hiding in the holes. As soon as you have the 30 discs in hand, shoot the Cage at the end of the level to rescue your cool companion and move on to Stage Two.

**HIDDEN POINTS**

There should be a cache of Cool Discs concealed near the Lawn Chair. Check it out carefully.

**GIVE ME A DRINK**

Earn an energy-restoring 7-Up by beating some of the beasts at the beginning of the stage.
A DAY AT THE BEACH

What's up? 7-Up! That silly 7-Up commercial star, Cool Spot, is back and better than ever in a stunning new Game Boy version of the original Cool Spot adventure from Virgin. There are several captured Spots still to be saved, and it's up to you to be courageous and save the day—stay cool, Spot!

SPOT COLOR

With the excellent extra features available only on the Super Game Boy, you get to choose from the coolest collection of colors and backgrounds imaginable! Go for some of your own humorously hip and happening hues, or enter the password 2421-9219-9243 in the convenient Color Palette password screen to try the traditional 7-Up Spot colors of red, white and green.

SAME AS BEFORE

Whether you're a new dude to the Cool Spot collection or an old pro from the Super NES version, you may find it helpful to hunt down some maps. Because the Game Boy version is almost exactly the same as its Super NES predecessor, you can look in Volume 53 of Nintendo Power for maps to the first five levels. Don't be surprised, though—they're in a different order.

MORE TIME

The search for those coveted Cool Spots can take you into overtime. Pick up a handy Alarm Clock to supplement your timer with some spare seconds and keep searching for Spots!

BALLOON WALKER

The abundance of vine-like Balloon strings may cause Cool Spot to think he's jungle jumping rather than spending a sunny afternoon on the beach. With a bit of practice, Spot will see that these swingable strings are a worthwhile way to travel.
Stage Two, Pier Pressure, is a harrowing hangout for all sorts of cutthroat creatures. You'll find crafty Crabs and frightening Fish Heads thwarting your efforts on the wharf. There are many harmful hazards in this haunt that one must watch out for, like sharp Hooks and tricky Traps. Spot has really got to learn the ropes quickly for success in this stage.

Even when Cool Spot is at his thirstiest, water is a big no-no. It's only the Un-Cola for him, and that goes for swimming, as well! One must be especially careful in the Pier Pressure stage not to take a long walk off a short pier, or poor Spot will be no more.

These inconvenient little Inch Worms won't be measuring any marigolds around here—they see Spot and they want him! Luckily, Spot can jump and shoot to remove them from the Ropes prior to climbing on.

Off The Wall actually takes place in the wall, and that is not the coolest place to be. It's dark and creepy, and the Spiders and Mice that live there are not exactly gracious hosts to a happy-go-lucky Spot. What makes this level even more difficult than the previous ones is that it is a much more complicated maze. Even when you collect enough Spots, chances are you'll spend quite a bit of time looking for the Cage.

Barbed Wire is one of those things that you just can't get away from in Off The Wall—it pops up everywhere! As with real Barbed Wire, Cool Spot is better off staying far away from it until he is able to leap over a piece in a single bound. Keep in mind that you can often shoot enemies through obstacles, thus clearing the way in advance.

These little Mice are so quick that you won't have a chance to get them once you land on the platform. Try to dispose of them while you're hanging on a Rope.
FISH HEADS

Ooooh—these roly-poly Fish Heads want to spit some toxic goo at you, so watch out! They are rather difficult to defeat. It's easier in the end to avoid them altogether.

RESTART FLAGS

The pressure's off, or at least lessened a bit, as there are four Restart Flags located throughout Pier Pressure. If you lose your life, you'll start at the last Flag you passed.

CRABS

A crew of crabby Crabs seem to have taken over the Pier. Try shooting them from above to avoid their clicking claws.

SPOT TRAPS?

They may look like little trampolines, but these spring-loaded Spot traps are very uncool for our Cool Spot, so it's best to stay far away. If your jumping skills are up to par, you may be able to successfully negotiate your way over them.

SPIDERS

These little buggers are waiting on top of the beams for an unsuspecting Spot. As soon as you come near, they will drop down on a string of silk and give you a surprise.

BONUS

To complete a level and save your fellow Spot from a tight spot, collect the amount of Spots specified in the beginning. Collect at least 75% of that number in the Easy mode to go to the Bonus Round.

* \( \text{CONTINUE: } \) \( \text{SCORSE: } \) \( \text{GOON } \) \( \text{BONUS } \) \( \text{FIND: } \) \( \text{50: } \) \( \text{CONTINUE: } \)

Spending extra time Spot searching may pay off in the end. The Bonus Round contains extra cool items to help you through the upcoming Stages.
Stage Four, Radical Rails, is a reckless room full of jeering Jack-In-The-Boxes and nonsensical Nose and Glasses Kits. Cool Spot must hop on the spot to make it through this terribly tough town of terror. The Cage is in the upper right corner, so try to stay as close to the top as possible. Dipping down below will only land you in a heap of trouble. Try hopping in a Bubble to get back on track.

The Radical Rails that are referred to are really quite tricky. We encountered similar obstacles in the Shell Shock Chair. Instead of running right up, you’ll have to shimmy and stagger your way along.

The Radical Rails
Bubbles are very, very cool! Just jump in and you’ll be whisked away on a ride you’ll never forget. You will want to scope out a soft landing spot, though, because what goes up must come down eventually.

Stage Five, Wading Around, appears to be filled with a cool and crazy collection of funny floatation devices to be used for your fun and frolicking pleasure. This precarious pool isn’t all fun and games, though. Wading Around is one of the toughest levels because Spot cannot take a skinny dip without it resulting in some serious sorrow. Everything will be just ducky with a bit of balance and super Spot skill.

Stage Five, Wading Around, appears to be filled with a cool and crazy collection of funny floatation devices to be used for your fun and frolicking pleasure. This precarious pool isn’t all fun and games, though. Wading Around is one of the toughest levels because Spot cannot take a skinny dip without it resulting in some serious sorrow. Everything will be just ducky with a bit of balance and super Spot skill.

This level is certainly cute, but don’t let appearances fool you! Cool Spot has to utilize all the floating objects, like the Lily Pads, Toy Boats and Rubber Ducks, to masterfully make his way across the dangerous pool water divide.

Waiting around in Wading Around isn’t going to get Cool Spot very far. Be sure to search high and low for the five 1-Ups hidden throughout the level, because in the end, you’ll really need them!
BONUS
The Bonus Round after the Fourth and Fifth Stages are bountiful with a bonanza of beautiful Power-Up Items. Besides the extra Spots, 7-Ups, Clocks, and 1-Ups you've seen before in the Bonus Rounds, there's an extra special Item in this one: Find the Letter for a chance at an extra Continue. It's just one more way to ensure a safe passage to the end of the game.

WHAT'S LEFT?
The remainder of Cool Spot's journey through Spot Land will be determined by your finely tuned finger skills and commitment to saving your fellow Spots. Try completing the game in Hard Mode for a truly cool accomplishment and an amazingly cool ending!
There are numerous palette combinations that will work with this game, but don't take our word for it—try them all out! Pick out a picture frame that strikes your fancy while you view the ball.

From the Simpsons' television to your Game Boy (or Super Game Boy), Itchy and Scratchy are closing in with murderous intent. Enjoy nine holes of miniature golfing with the twosome in all of their violent splendor!

Scratchy is giving miniature golf a try. It looks easy enough! It would be, but his nemesis, that rodent Itchy, has other plans. Instead of playing a round of golf, Itchy just wants to play around. His style of play isn't friendly! Help Scratchy whack the ball around the hazard-infested nine-hole course while avoiding Itchy's incessant attacks. Try to sink the ball into the cup with the fewest number of strokes.
Itchy is a master when it comes to utilizing various implements of Scratchy’s destruction. Many times has the playful mouse “buried the hatchet” with his feline counterpart and vice versa. Luckily, the “nine lives” rule doesn’t apply here—Itchy and Scratchy are only cartoon characters. They don’t really die.

**AXE TO GRIND**

The first Itchys that Scratchy comes across wield Axes. They hesitate, then charge at Scratchy. Your hack time is critical!

**CHAIN SAW**

Scratchy will get sawed in two if Itchy gets too close with the Chainsaw. It’s not a pretty sight. Things couldn’t be worse.

**AIR ATTACK**

Itchys won’t always appear from the sides. Sometimes they’ll drop down right in front of you. Nail them before they land.

**BAZOOKA**

Itchy is armed and ready for big game with this Bazooka. However, he can’t fire it equally. Move in fast to disarm the rodent.

**DAGGER DANGER**

He throws one low, then he throws one high. Move for the kill when Itchy throws one of the high Daggers. Jump the low ones.

**FLAME THROWER**

Wait for a pause in the midst of flames before moving in to do away with this menacing Itchy. Jump over him if necessary.

**ERASER**

Finding and snagging this item will erase one stroke from your score. It’s a nice little bonus, but doesn’t help you with your Itchy problem.

**EXTRA SCRATCHY**

A miniature Scratchy represents yet another life that Scratchy can lose in this whacked-out game of miniature golf. Most are hidden well.

**B-BALL BAT**

Scratchy will be awarded six swings of the mighty Baseball Bat when he picks up this item. Don’t waste them by taking practice swings!

**MALLETT**

Remember what happens when Manc grabs a hammer in Donkey Kong? That’s exactly what happens when Scratchy grabs this particular Mallet.

**BOMBS**

A Bomb will explode when it hits Itchy, but if it doesn’t hit him, it will roll around for several seconds before it explodes. Watch out!

**FLYING DISC**

Scratchy gets to fling six flying Discs at his raten friends after he picks up one of these items. They are effective at very long range.

**BOOMERANG**

If you don’t nail an Itchy when you throw a Boomerang, you may be able to score a kill when it makes its return trip. You can get it back.

**GRENADES**

Grenades are effective rodent exterminators. Like Bombs, Grenades will take out an Itchy if they explode when he’s in the general vicinity.
Very simple in its layout, the first hole doesn't present many dangers, especially from Itchy. Once you get the feel for how he charges at you, Itchy will be as good as burnt toast. Actually getting the ball into the hole presents the greatest challenge. There are two very easy 1-Ups to be had here—don't pass them up.

Don't drive the ball off the tee until you jump up and to the left through the tree to get a hidden 1-Up. There's no better way to start off your round!

When Scratchy reaches the lowest level on the first hole, there will be a hammer waiting for him. When he picks it up, he'll automatically start smashing everything in his path. Fun!

If you use somewhat less than a full swing, and punt the ball from just left of the hump, it should make it up to the hole. It's kind of tricky, though.
The second hole is quite a bit longer than the first and it contains some maze-like areas where you can pick up items. It also has a hidden room that houses some flying discs. Don't hesitate to leave your ball to go exploring. There's no time limit. Just be prepared for the maniacal Itchy!

There is a 1-Up located in a room to the far right at the lowest level of the hole. Whack the Krusty head that springs up, then enter the room to collect the reward.
The third hole on Scratchy's perilous mini-golf jaunt presents him with some interesting situations. Precise ball placement will come into play as well as a variety of tubes that the ball can travel through. Check the map for the location of a hidden 1-Up near the beginning of the hole. Scratchy will have to pass through an invisible corridor in the wall to get to it. As always, Itchy is out in full force with weaponry a plenty. When will the madness end? Never!

The Itchys that hang down on ropes from above will toss Grenade after Grenade at you. Jump up and toss a Grenade right back at them. Be sure not to jump right into one of the explosions, though.

Hit the ball so it comes to rest on top of the coffin door. When it opens and the Bats fly out, the final bat will carry the ball toward the hole!
Since it's a par-25 hole, #4 is pretty long and will involve a lot of strokes. Itchy is really on a tear now!

BLAST OUT!

Water traps are easy to get out of. You have to use the ramps and an appropriate-strength swing. Use the marks on the swing gauge as a guideline.

I SCREAM OF GENIE

Booby traps, lots of inclines and, of course, the omnipresent Itchy are just some of the hardships that Scratchy will have to contend with on this hole.

TURN IN YOUR CARD

The fun is just starting! We haven't even warmed up yet. Miniature Golf Madness, even though the concept may seem simplistic, actually turns out to be quite a challenging game. We're happy to report that it's also a game you can play over and over again.
Interplay's latest Game Boy offering, RoboCop vs. The Terminator, is set in the Detroit of the future, where the worlds of the two superheroes have merged into a single reality. Although based on the comics of the same name, the single-player game is a platform shoot-'em-up in which The Terminator makes only brief appearances.

**LEVEL 1 DETROIT**

In future Detroit, the electronic defense system known as Skynet decides that man is the enemy. The machine-gone-mad creates a race of mutant robots to destroy what remains of the fallible human race. Skynet realizes that RoboCop, the only successful hybrid of man and machine, is a threat to its very existence and sends humanoids back in time to destroy him. In the meantime, RoboCop plans to regenerate himself in the future with the sole purpose of rescuing mankind by eliminating Skynet. His quest for victory starts on the streets of Detroit.
METAL MAN MOVES

You'll find that learning to kneel quickly will prevent enemy fire from hitting its target. Duck as soon as you see movement, then prepare to return fire so you can take out the enemies before you suffer any damage. You'll need to have a full Health Meter to survive the difficult stages late in the game, so it's important to avoid being hit early on.

SUPER STRATEGY

Using Super Game Boy to play RoboCop vs. The Terminator gives you a super advantage. The Super Game Boy's color not only make enemies easier to identify, but the fact that moving objects and characters don't blur on the big screen makes timing critical jumps easier, too. Either try the Power Palette suggested below or experiment with palettes of your own to find the one you like best. Super Game Boy offers up lots of variety.

SNIPERS

Snipers lie in wait on the rooftops. Stay just out of their lines of fire, press Up on the Control Pad and shoot.

STREET PUNKS

Kneel to avoid the Punks' fire, but then move quickly forward to keep a steady stream of the bad boys from emerging.

GRENADIERS

A grenade tosser and a Sniper await. Stay out of grenade range, take out the Sniper, then concentrate on the Grenadier.

LADDER LEAP

You won't be able to reach the ladder. Go to the right, grab the pipe overhead, cross back to the left by using the pipe, then leap to the ladder.
LEVEL 2
THE OCP COMPLEX
Omni Consumer Products (OCP) uses many robots in its warehouse, and they're all on the lookout for RoboCop. They have orders to shoot on sight. Flying robotic enemies show up here, too.

CONVEYORS
You can't jump high enough to reach the platforms overhead, but you can reach them by bouncing off the robot parts that drop onto the conveyor.

LASERS
There are flying robots and two Lasers here. Blast the Lasers before they strike you with beams, then fire at the robots.

LEVEL 3
THE COMPUTER CENTER
RoboCop plans to transport himself forward in time in order to destroy Skynet and save mankind. To do so, he must battle his way through the Computer Center to the Time Transporter at its end. The Computer Center scrolls sideways and is a single screen high.

Kneel behind the desk to stay out of the line of fire, then squeeze off one round to get rid of the pesky enemies in the office area.

The beam goes off and on. Move forward while it's off, kneel when it comes on.

LEVEL 4
FUTURE LOS ANGELES
When RoboCop transports himself to the future, he can see the devastation that the Skynet has already caused. Unless he can destroy the system and reverse the damage, the future looks bleak. Indeed, Los Angeles, in the unaltered future, is a desolate place populated with skeletal robots and threatened by ominous, toxic clouds.

The electronic enemies of the future are much more difficult to defeat.

NOVERCRAFT
The huge Hovercraft fires from three points. Attack when it floats down beside you.
ROBOCOP VS. THE TERMINATOR

You'll come face-to-face with The Terminator at the end of Level 2. He's waiting on the platform in the upper right. Position yourself beneath the platform and fire to terminate him.

LEVEL 5
THE ACCESS CORRIDOR

The Access Corridor is the first vertically-scrolling stage, and it's much more complex than the ones that came before. You'll meet some tough, new robotic enemies in this area.

ROBOTS

Deactivate the robot on the right by hitting it once, then attack the one on the left.

BEAM OFF

Jump from the platform to strike the generator on the wall and turn off the electric beam.

MAN OR MACHINE?

Ahead lies the most difficult part of RoboCop's quest. He must fight his way through two more levels to reach the Skynet Computer. Man or Machine? Only one will prevail.

A LOOK INTO THE GAMES OF THE FUTURE

You may recognize the name, but the game will astound you just as it did us and everyone else who has seen, heard and played it. Nintendo's Donkey Kong Country for the Super NES launches a new era of super programming that will feature games far in advance of anything you've ever seen on any video game system, and it accomplishes all this on your Super NES. Sure, it sounds like so much hype...that is until you check it out for yourself. Out of more than a thousand games this Pak Watcher has seen over the years, this 800 pound, 32 Megabit ape out-powers them all. Some people were talking about the decline of 16-bit game systems, but DK Country corked that pretty fast. The 3-D graphics and animation in this Super Mario World-sized action game are so good that it puts to shame the other high-end video game systems.

Naturally, inquiring minds have been asking your Pak Prof, how is all this possible? Well, it isn't simple. The brain trust at Rare in the U.K. worked with Nintendo to create what is undoubtedly one of the most sophisticated development studios in the world. Utilizing millions of dollars worth of Silicon Graphics Workstations, the programmers were able to create staggeringly realistic 3-D animations. Once you've created the computer animations, it's a much smaller step—like that moon walk thing—to adapt them for use in the Super NES. Next month, we'll take a look at the making of Donkey Kong Country.

Okay, you're thinking, so it looks like a billion, but what about the play? The play's the thing, right?
Here it is in a barrel: you've got DK and Diddy, his chimpish pal, loping, running, rolling, swinging, swimming, climbing, jumping, riding, stomping, scratching, high-fiving, barrel blasting and grinning like apes as they ride the rails toward imminent disaster. Let's set the scene. You've got snow, you've got jungle, you've got coral reefs, deep caverns, more jungle, cliffs, tunnels, sunsets, night, day, and more bananas than Chiquita. You'll also run into a mob of wild creatures, but some of them are your pals, like a rhino and an ostrich. So what's the bottom line from Pak Watch? DK rules the jungle. Believe it.

**MORTAL KOMBAT II**

What's the score on MKII Players 1, Critics 0. Not everyone is going to like this, but the players (and let's face it, that's who counts) are going to eat it up like fries. The Super NES Mortal Kombat II has it all. All the moves! Fatality, Fatality, Friendship! And all the characters. They're all here, and they look awesome. Inside rumors have it that Sculptured Software and Acclaim have hidden tons of special moves, characters and surprises in the game, making it even more exciting than the arcade version. As most of you already know from having checked out this fighter at the arcade, it's already a much deeper game than the original Mortal Kombat. There's more variety and more challenge. But dangerously realistic? Yeah, like Pinocchio. The digital graphics look awesome, and drop for drop the Super NES version finishes the Genesis with a flawless performance. But the content of MKII is pure fantasy. Anyone who thinks you'll need a mop to clean up after it is seriously misinformed. This Pak Kombatant thinks America will survive the second coming of MK just fine.

**SUPER PUNCH-OUT!!**

Bald Bull is back along with three circuits of knockout arcade boxing that will make your head bleed just thinking about it. Fans of the original Punch-Out!! will recognize some of the fighters like Piston Hurricane, who was Piston Honda in the NES game, and stars of the coin-op Super Punch-Out!! like Dragon Chan. But many of these fantasy pugilists have appeared straight out of the wonderfully warped imaginations of their programmers. Ten new faces include rasta-fighter Bob Charlie, old-timer Gabby Jay, and the ultimate boxer, Mr. Bruiser. In all, you'll have to battle it out with 16 contenders. The semi-transparent view of your fighter allows better sight of your opponent's moves.

Good play control made the difference for this Pak Puncher, plus good sound. It's the best Punch-Out!! to date for fans of the arcade and NES classics, and the bell rings for the opening round this October.
PLAYMATES

Picture this peaceful scene. You’re a simple, segmented earthworm minding your own business when suddenly out of a clear blue sky an alien cybersuit splats down practically on your head. Okay, if you’re a worm, you don’t have a head. But if you’re a curious worm, like Jim, you’ll crawl over and check out the hi-tech duds, and if you do that, suddenly you’ll be transformed into a super hero of epic proportions even though you have only one muscle in your entire body and a serious lack of brain cells. That’s the story behind Playmate’s off-beat comic action game that is due to be released this fall. David Perry, the game’s creator, says that Earthworm Jim is different. “He isn’t just another woodland creature with an attitude.” Jim zaps enemies with a blaster, he bungee jumps, and he saves helpless, wriggling relatives from dining crows throughout the galaxy. A real wormitarian. There’s plenty of hard-blasting, worm-whipping action, but there’s also a lot of humor in the game. Perry has made his mark with some spectacular graphics masterpieces, but he acknowledges that his other games, like Aladdin, are nowhere near as advanced as Jimbo. Apparently, others agree. EJ may become the TMNT of the second half of the nineties. Already, Earthworm Jim has been signed up for a pilot television run of several episodes.

BUBSY

That bouncing bobcat with a million ways to get panned is coming back for an encore in Bubsy 2. Gone are the dorky yarn balls, replaced by shiny marbles, an open game structure, lots of variety including shooting stages and frog hurling, and some excellent comic animation. (Yeah, you read right, frog hurling—small, innocent frogs that you hurl high into the air while they croak in terror. This is the sort of inspired weirdness you might expect from Lucasarts, but apparently Accolade is loosening its corporate necktie.) The plot? Bubsy ventures into the Exploratorium in search of his nephew and niece. Each exhibit actually takes him back in time to a rollicking race through settings such as an ancient Egyptian pyramid, a pirate ship and a medieval castle. (And did I mention that you get to fling frogs?) There are shooting stages, too, like the asteroid dodger shown below. Seriously, Bubsy fans will have a lot to be thankful for come this fall.
**THE INCREDIBLE HULK U.S. GOLD**

The dean of mean green is on his way from U.S. Gold. The Hulk, long a favorite comic character, makes his video game debut in an action-thumping side-scroller that portrays the real Hulk more accurately than many of the video versions of super heroes this Pak Watcher has seen. The Hulk, as you probably know, is only the Hulk when he's mad. His rage transforms him from a fairly average guy. In this game, as long as your rage rages, you'll remain a huge, hulking thing. But if your rage drops too far, you'll become David Banner, who is no match for many of the enemies in the game. Even as Banner, though, you might find a weapon and shoot your way out of a fix. You can also find and consume an anti-rage capsule that transforms you to Banner, the reason for this being that there are some areas of the game that can only be reached by a smaller character like Dave. If you like bashing stuff and bulldozing through the opposition, The Incredible Hulk, coming in October, is your kind of game.

**MEGAMAN V**

Super Game Boy makes the latest Mega Man look mega-nificent. This Mega Watcher was ready for something new in a Game Boy Mega Man game, and this one does the job. Besides the great colors and border treatment, Mega Man has a new weapon, the Mega Arm, and a new ally, Tcolo, the Megagirl with a buzzsaw attack. The Mega Arm allows you to power up so you can unleash more damage with each shot. As before, you'll collect P chips and return to Dr. Light's lab to get Power-Ups. The enemies are robots from outerspace called Stardroids, but the bosses come from such places as Mars, Mercury, Venus and Neptune. The action is up to the mega standards set with this series, but the Super Game Boy facelift adds a lot of life. Look for this Megaboy early this fall.

**MORTAL KOMBAT II**

In addition to the Super NES Mortal Kombat II, there will also be a Game Boy version featuring most of the same game features including Fatality and Babality moves, plus hidden characters. Although not every move is included in this smaller Pak, each of the characters has three special attacks, two Fatalities including the Spikes, and one Babality move. Shang can morph into any of the other characters, of course, giving him the ability to do any move in the game. This Pak Fodder lost his head several times, but after some practice started picking up the pieces, turning the tables, and knocking some stuffing out of the computer. The tournament allows for one player action only, which is a bit disappointing. Still, the action is strong, the graphics look sharp and the thrill is to die for. And, although MK II for Game Boy wasn't programmed with the Super Game Boy in mind, it looks great in color.
We interrupt your normal reading to bring you this...

C.E.S. Special Report

The Beast is Back

Donkey Kong Country

The jungle, early morning: dew steams off the dense leaves, a monkey chatters nervously in the high canopy, a lion growls, paran- uts burst from a tree and shoot away in fear. You hear distant thunder and feel the earth shudder. Something is coming. Something huge. Something almost beyond belief. Nothing can stand in its way. Giant trees crash down and native drums pound a warning faster, faster, faster, and suddenly he’s there like some legend coming to life—DONKEY KONG—in the ultimate 16-bit game of all time. Welcome to Donkey Kong Country. The world caught its first glimpse of this mythical beast at Summer C.E.S. (Consumer Electronics Show) in Chicago. They were stunned. They were awed. Many thought the game consolation some new technology—a chip or processor in the Game Pak. But the technology was all in the programming and the credit went to Rare Ltd. and Nintendo who brought the beast back to life. How big is Donkey Kong Country? Too big for Sega. They didn’t dare show themselves at all. And 3DO and Jaguar cowered in the shadowy corners. Enough said, for now.

The first Nintendo Ultra 64 software dazzled a select group of game designers, licensees and reporters at secret CES suite, all were treated to a game of futuristic combat with stunning, 64-bit graphics, 12 main characters, and some killer surprises. This killer game hits the arcades this fall and should work with the home Project Reality system in the fall of ’95. Check out the preview coming next month. As for Cruis’n USA from Williams, it’s the hottest, most realistic ride you’ll ever see. In the arcades, you’ll climb behind the wheel of the race car of your choice and put the pedal down for three thousand scorching miles. At home next year you’ll have the same graphics as in the arcade, but no ten thousand dollar arcade car to climb in. Life’s rough.

Nintendo’s domination of the Summer C.E.S. went beyond the debuts noted above. Super Punch-Out!! is destined to be a classic. The Illusion of Gara is the best adventure game of the year. The innovative Uniracers utilizes the same SGI development processes as Donkey Kong Country. Tin Star is twisted fun for the Super Scope crowd and Donkey Kong Land for Game Boy uses the same animation as Country. Nintendo also unveiled a new style and image with the Play It Loud campaign.
EARTHWORM JIM

The guys at Shiny Entertainment are probably certifiable. They've been working within worm-crawling distance of the beach in Southern California for months and half of them haven't even seen it yet! But they're also total game fanatics who know what's fun. Earthworm Jim for Playmates is destined for more than a crow's belly and Shiny is destined for greatness.

OUT OF AFRICA

Disney knows how to make a presentation like nobody else. The most spectacular event of the show had to be their lavish introduction of The Lion King, complete with African drummers, dancers, a gorgeous Broadway set of the African savanna, a live lion cub, Disney's top executives, Rafiki the baboon, a screening of the movie's opening scenes and footage of the game. The only things Virgin Games didn't get from Mickey's Company were a kiss and season tickets to the Mighty Ducks. Oh, the game looked pretty good, too.

ACCLAIM HELD BACK NOTHING IN WHAT MAY WELL BECOME THE ULTIMATE 16-BIT FIGHTING GAME—MORTAL KOMBAT II. ALTHOUGH NOBODY AT ACCLAIM AND SCULPTURED SOFTWARE WILL GO ON RECORD, FOR OBVIOUS REASONS, SOURCES AT BOTH COMPANIES OFF-THE-RECORD SAY THAT THE SUPER NES GAME IS FAR SUPERIOR TO THE COMPETITION. NEED WE SAY MORE? HOW ABOUT THIS: ACCLAIM HAS LINKED UP WITH NINTENDO, AGREEING TO CREATE AN EXCLUSIVE ULTRA 64 GAME FEATURING TURORK. OTHER NEWS FROM ACCLAIM IS THE SPECIAL EDITION RED GAME PAKS FOR THE INITIAL RUN OF SPIDER-MAN & VENOM IN MAXIMUM CARNAGE. STARGATE FOR THE SUPER NES WILL BE BASED ON THE FALL HOLLYWOOD RELEASE STARING KURT RUSSELL. NIGEL MANSELL RETURNS TO THE SUPER NES IN THE TWO-PLAYER NIGEL MANSELL'S INDY CAR RACING ALONG WITH WWF RAW, U.S.H.R.S. MONSTER TRUCK WARS, ITCHY & SCRATCHY, VIRTUAL BART AND TRUE LIES, A FALL MOVIE STARRING ARNOLD SCHWARZENEGGER.
Even bigger than the news of their hot line up of games was Capcom’s announcement that they were starting a U.S. development group in their Bay Area office. The group of about 40 designers, artists and programmers will work on titles specifically designed for U.S. players. In the meantime, Capcom is offering Mega Man X2, Demon’s Crest, The Great Circus Mystery Starring Mickey & Minnie, Bonkers, Mega Man V for Super Game Boy and maybe even the X-Men by the holidays.

Several of the best games for the fall will come from JVC via Lucasarts. First up is Indiana Jones’ Greatest Adventures. The swashbuckling professor of antiquities relives his most daring deeds in this Super NES feast of graphics and fun. Next out will be Super Return Of The Jedi, the concluding game in the three-part trilogy. Super Jedi will feature Mode 7 stages and tons of action. Princess Leia finally becomes an active character along with the Ewok, Wickett once the Rebellion makes its attack on the forest moon of Endor. Finally, as if the first two games aren’t enough, JVC also will bring out Ghoul Patrol.
Konami returns after a slow first half of the year with one of the strongest fall line ups for the Super NES and Game Boy. Exclusive to the Super NES will be Batman: The Animated Series, an action adventure game featuring tons of bat toys and lots of bat moves, not to mention varying play perspectives. Also look for Animaniacs, Tiny Toon Adventures—Wild N’ Wacky Sports, Biker Mice From Mars, Sparkster, and Soccer.

For Game Boy, Contra—The Alien Wars reintroduces this awesome action series.

Interplay’s quality was as dazzling as always with an all new Clay Fighter 2, Star Trek Academy and Blackthorne. The Clay tournament features new characters, moves and backgrounds in the fun claymation style of the original Clay Fighter plus six modes of play. Blackthorne rocks with great animation, graphics and sound in a sci-fi adventure that will leave you sweating. Star Trek Academy features missions and space battles from the perspective of Federation vessels and enemy ships. Here’s your chance to be a Romulan! Interplay also announced that The Lost Vikings 2 should appear early next year.

Imagine Mario Kart with a four-player mode, bumper bashing tournaments, special attacks and drivers like Frank (short for Frankenstein) and Suzula the tribal warrior. That’s what Ubi Soft’s surprising Street Racer looks like and drives like. Mode 7 graphic effects highlight this game, but the fun comes from great modes of play, like an all-out crunch fest in which opponents try to knock each other out of the ring. You can even play car soccer, or race the circuit and view your performance from varying camera angles.
The Supervisor is watching you in Absolute's Rise of the Robots, but you'll be watching the spectacular graphics in this futuristic fighter. Mirage Technologies of the U.K. puts together smooth animation with responsive controls in the Super NES game to be released this fall. Although basically a tournament fighter in design, Rise has more of an adventure feel due to an interesting cyber story and cinema scenes between battles. Absolute also announced development of Star Trek Generations: Beyond The Nexus, which is based on the Star Trek Generations movie.

Although Sony Imagesoft could have made do with a shorter title for this game, Mickey Mania mixes Disney animation with video gaming for an almost cinematic experience. The Mickey animation was created using Silicon Graphics computers and Disney artists. The 7 stages of the game represent film features in which Mickey starred such as Steamboat Willie and Fantasia. Sony also showcased its ESPN license with several new sports games including ESPN Sports World and ESPN Sunday Night Football.

Viacom, Disney, Time Warner and Fox all made big splashes at CES for the first time. The movie and TV monoliths certainly have a thing or two to learn about the video game business, like how to make hit games, but they seem intent on making the effort, spending the bucks and keeping at it until they succeed. Viacom leads the pack with Beavis & Butthead and Nickelodeon Guts for the fall line up. Disney, although working through other licensees like Virgin and Sony, are also set to produce their own games. Time Warner's Tengen will present Super RBI Baseball this fall along with other possible acquisitions. And Twentieth Century Fox, probably the most innovative and eager company of them all, is pushing forward with an underground comic book hero farce, The Tick, and a game based on this fall's release of The Pagemaster.
Adventurers had to wander no further than the Enix and Square Soft booths at C.E.S. to capture the ultimate role playing and adventure games. Square unleashed the U.S. version of the biggest and best RPG in history—Final Fantasy III. This game lets you choose between different characters who will lead you into a wide variety of adventures so that no two games need be alike. Square also showed Breath of Fire and plans to release a third RPG later in '94. At Enix, the focus is on adventure with Brain Lord and

King Arthur & The Knights of Justice. Enix also unveiled a new RPG by Quintet, the designers of Illusion of Gaia. Robotrek takes place in a future where you must construct special robots to perform special tasks. FCI will be bringing out three titles this fall: there’s the vast Might & Magic III that brims with so many secrets that you could stick whiskers on it and call it a cat, Ultima: Runes of Virtue 2 (Super NES, not Game Boy,) and Ultima VII: The Black Gate. At Koei, the biggest news was Uncharted Waters—New Horizons. This sequel includes strategic, economic and RPG elements with six unique perspectives for the player to take. Aerobiz Supersonic and Nobunaga’s Ambition—Lord of Darkness will also keep strategy gamers up late this fall.

Super Bomberman II from Hudson. Flintstones, Addams Family Values and Jurassic Park 2 from Ocean. More Ren & Stimpy and seaQuest DSV from T*HQ, plus Bass Masters, Akira, and The Mask. Acclaim showed an early Fireteam Rogue and a polished Bubsy 2, plus a 3-D fighter called Ballz from PF. Magic. Elite is working on two Super FX racing games: Powerslide and Dirt Racer. ElectroBrain, the first licensee to make a Super FX game, Vortex, also showed an early motocross game featuring Super FX power. ElectroBrain also showed Future Zone and Tommy Moe’s Winter Extreme Skiing and Snowboarding. Tecmo put a unique sports vision and great options into Tecmo Super Baseball. Taito had Sonic Blastman 2 and Super Soccer Champ 2. Gametek had Churn & Burn with jet skis and motorcycles. GTE Interactive, a new player in the video game world with a giant parent company looking over its shoulder, will bring out Jammit! (formerly licensed to Virgin) and Blades, an in-line hockey game for the Super NES.
Illusion of Gaia brings you to a quest of legendary proportions. Join Will on an adventure that will carry him around the Earth, searching for a way to stop the dreaded Chaos Comet. The next great adventure is about to begin, so don't miss out!
